3DPAGEFLIP FOR PPT

Build Cool 3D page-flip eBook with PowerPoint

About 3D Pageflip for PowerPoint

3D PageFlip for PowerPoint is a converter tool to transfer your common, still PPT files into cool, wonderful digital eBooks with real 3D page turning effect. You will be able to turn the created eBook with stunning 3D Flash Tilt effect, like reading real books or magazines, read from any angle as you want. The amazing program also provides you dozens of settings for you to customize your own style digital brochures or magazines, such as different language, different share channel, unique book logo, etc.

Note: This product is distributed on a "Try before-you-buy" basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in your generated page-flipping eBooks.

Product features

1. Convert PowerPoint to flash eBook with 3D page turning effect.
2. Define page range, page quality and size for imported PowerPoint.
3. Customize a pre-loader for flipbook.
4. Create table of content according to your PowerPoint content.
5. Apply a pre-designed template (including 3D panoramic template) or animated scenes.
6. Export and save settings or projects for future use, record page info to save your multimedia designs.
7. Enable Auto Flip with setting Flip Interval.
8. Set page thickness and make book auto scale in different Flash containers.
9. Set Flash buttons display language.
10. Input Presenter information such as name, website address, Email and details info to show in About Window. Define book Title, show logo in 3D eBook.
11. Choose color for Tool Bar, set background with pure/gradient color or image directly.
12. Pre-set tilt angle while opening the eBook.
13. SEO and Google Analytics Integrated.
14. Enable readers to sharing via Facebook, Twitter, iGoogle, etc, Sharing Analytics supported.
15. Output to different formats: HTML, ZIP, EXE, 3DP, Mobile Version and Burn to CD.
 - ✓ HTML allows you to upload to a website to be viewed online (with title, keywords and other metadata defined).
 - ✓ EXE (with setting title, icon and open window size) and Zip allow you to send to your user by email to be viewed on their computer.
 - ✓ 3DP is a special format for [3D PageFlip Reader](#) – suitable for email sharing.
 - ✓ Mobile version is to output HTML flipbook which can be viewed on mobile devices via Browsers (support slide single pages on mobiles).

Using 3D PageFlip for PowerPoint

I. Home Panel

In this part, there are a series of basic functions: "Import ppt", "Save Project", "Open Project", "Convert to 3D Book", "Help", "Option", "Upload Online", and "Manage Online Books".

1. Import PPT and Project Options

(1). Import PPT

Click "Import PPT" icon  to choose PPT file from your computer.

3D PageFlip For PPT Utility

User Document

Set Page Range for the PowerPoint: You can Import all pages or customized some targeted pages to import.

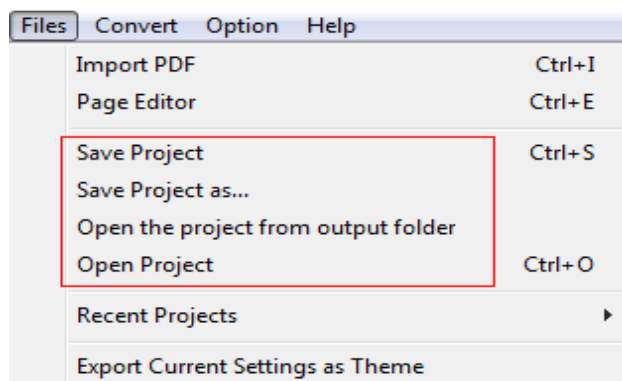

You can define Page Quality and Size to convert your PPT file:

(2). Project

Click "Save Project As..." in Files to save the imported files and current settings as a project file, and when you want to modify or complete the project, just click "Open Project" to edit the stored project directly. While editing, it's OK to use short cut key "Ctrl + S" to quickly save your project. Otherwise, you can open the output eBook file (HTML format) directly via "Open the project from output folder".

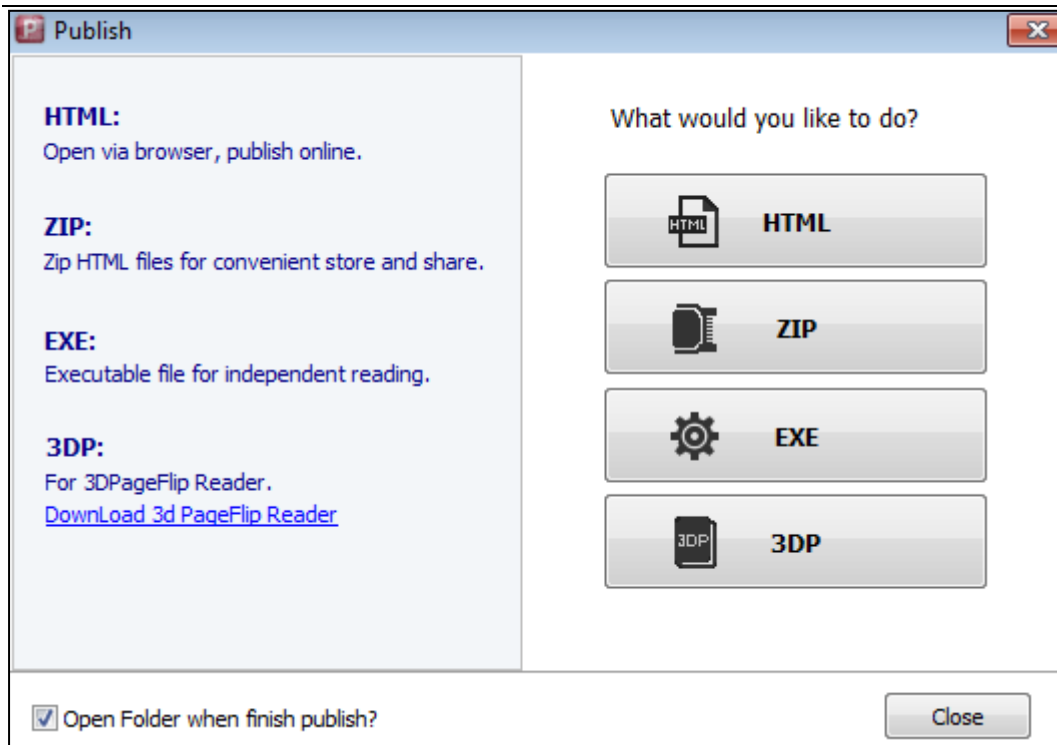

2. Publishing Part

Click "Publish for Flipbook 3D" to enter into publishing interface as below image shows:

3D PageFlip For PPT Utility

User Document

Output types:

(1). HTML

This output type is for uploading created page-flipping ebook onto websites. You can define HTML Title and other properties by clicking "Advanced" button:

Set Keywords and Description in the below interface:

3D PageFlip For PPT Utility

User Document

HTML Meta Settings

Title:

Keywords:

Description:

(2). ZIP

This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can also define HTML Advanced Settings by clicking "Advanced" icon. Your recipients just need to uncompress the ZIP file and then they can view the HTML DemoBook instantly:

(3). EXE

This type is for outputting 3D flipbook as a single executive file, easy storing and easy viewing, you can also define Icon and Opening Window Size in Advanced Settings:

3D PageFlip For PPT Utility

User Document

Exe Window Info

(4). 3DP

This format is a special format designed for [3D PageFlip Reader](#). People should install 3D PageFlip Reader if they want to read 3DP format flipbook.

After you complete all design and page edit work, click "Convert" to output your completed 3D book in selected format.

(5). Mobile Version

You can even output Mobile Version while choosing HTML or ZIP format at the same time. After creating mobile versions, you just need to output all files online (including HTML, SWF, "files" and "mobile" folders), then you can visit the flipbook page through browser on iPad, iPhone and Android devices.

(6). Epub format

EPUB became an official standard of the International Digital Publishing Forum (IDPF) in September 2007. Comparison of e-book readers contain: Android devices (using FBReader, Aldiko), iPad, iPhone, and iPod Touch (Lexcycle Stanza or iBooks on iOS 3.2+), Sony Reader.

(7). Burn to CD

3D PageFlip For PPT Utility

User Document

Burn to CD

CD Writer: 0:1:0,E: HL-DT-ST DVD-ROM DH40N A101

Disc title:

Make it automatically play the slide in CD

After choosing output type, then check the option "Burn to CD", set "CD Writer", define "Disc title".

At last click  button to output flipbook in defined type.

3. Upload Online and Manage Online

(2). Flash Language

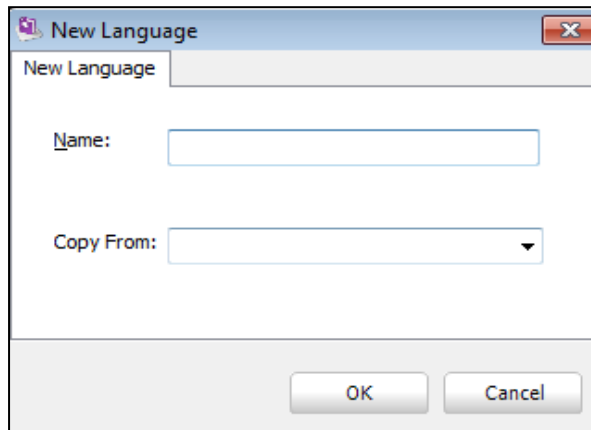

If you want to use another display language for your 3D flipbook, you can click "Flash Language" to enter into the Language Settings interface as below shows:

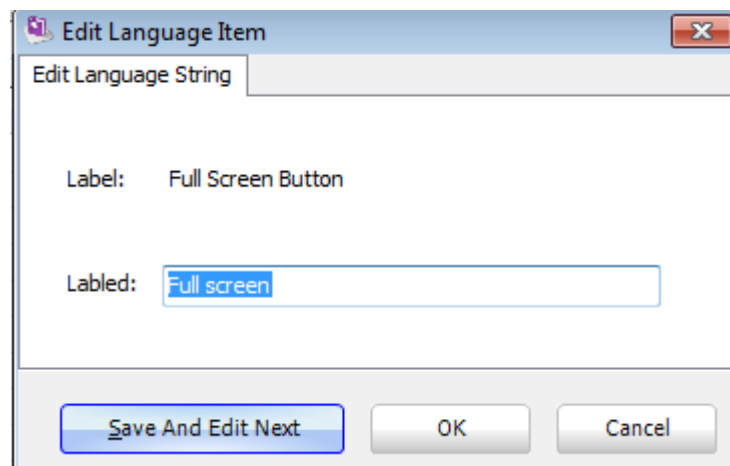

As the tips explaining, the "Labeled" column lists the buttons and instructions on Flash books in defined language, and the program provides you two different languages for you to use: English and Chinese. You can also add other language for your own uses:

1. Click the button  and define name for the new language:

Click "OK" to save the new language in the list;

2. Choose the first label and click "Edit" button , define new language text in "Labeled" box, then click "Save And Edit Next" (Alt+S):

3. At last, you can get all Labels translated into your new language.

You can delete unwanted language:

Or save your edited new language file as XML or TXT file:

Load language file saving before for current using:

(3). Flash Information

Here you can set password to 3D Book in order to protect your digital publication. After that, when someone open the book, he will be asked to enter the password. If not, he can't view the eBook.

Firstly, Click "Flash Security"  in "Option" to enter setting interface. Then choose "Single Password" and type in your password.

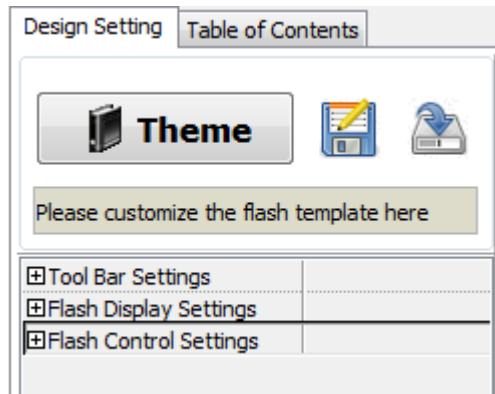

There is a personalized option: Exclude Front Pages.
Set a page number, all latter pages can't be viewed without inputting password.

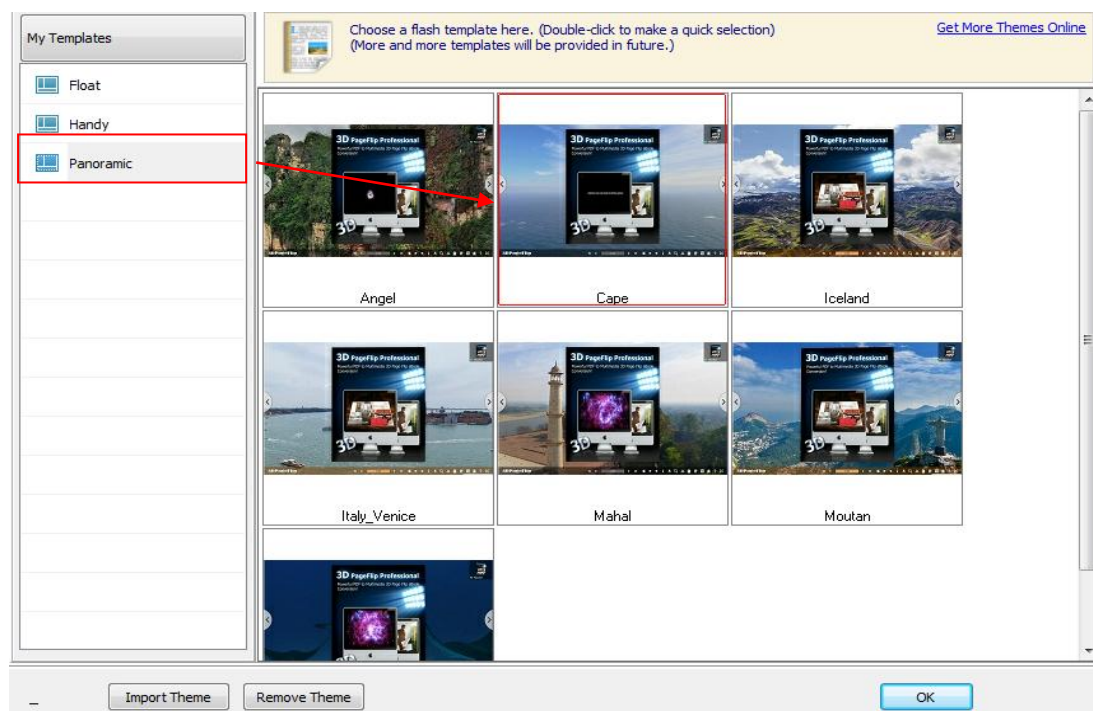

II. Design Setting Panel

In this part, you can design your 3D book layout with stunning own style. There are templates for selecting and three main setting parts for decorating: "Tool Bar Settings", "Flash Display Settings", "Flash Control Settings".

1. Template Part

Click "Theme" icon  to select templates from below interface, there are three types, including Float, Handy and 3D Panoramic:

3D PageFlip For PPT Utility

User Document

If you select the Panoramic template, you will gain cool 3D background scene. In the right top corner, there is a control panel, you can drag the little book in the panel to spin eBook in 360 degree. Double click the little book to go back to default state. If the light is red, you can't turn page. If it's green, you can turn page.

After selecting a pre-define template, you can do a lot of settings in Page Layout panel which will be introduced later, and then you can click "Export Theme" to save our settings for later uses by clicking button "Import Theme" directly. Download more free themes to use: <http://www.3dpageflip.com/themes-2012.html> .

2. Tool Bar Settings

(1). Tool Bar Color and eBook Title

Tool Bar Settings	
Book Title	3dpageflip.com
Base Color	0xFF0000

You can define the "Base Color" for the tool bar and other windows.

Define the title for your 3D eBook which will be shown on the top of the "About" window.

(2). Logo Settings

Check "Show Logo" option to display your logo on the left side of the tool bar (165*35 is the recommended size of your logo image), you can also add link on the logo to let readers to click on the logo and go to your website directly.

(3). Auto Flip

Auto Flip	
Enable	Yes
Loops	0
Flip Interval	3

To auto flip your eBooks, you can set "Enable->Yes", then define loops and Flip Interval (seconds of staying on each page). After clicking the Auto Flip button , the flipbooks will be flipped by staying 3 seconds per page.

(4). Background Sound

Background Sound	
Sound File	
Loops	Yes
Play Flip Sound	No

If you want to add background sound to your flipbook, such as a song or other audio file, click "Sound File" to choose audio from your computer, then set "Loops->Yes". The "Play Flip Sound" option is to help you define whether play page flipping sound or not when flip pages.

(5). Visible Buttons

Go to "Visible Buttons" option to define show or hide icons on the toolbar, including Zoom, AutoPlay, Info, Thumbnail, Print, Help, Tilt Angle, Background Sound, Bookmark, Share and FullScreen.

☐ Visible Buttons	
Zoom Button	Show
TiltAngle Button	Show
AutoPlay Button	Show
Background Soun...	Show
Info Button	Show
Bookmark Button	Show
Thumbnail Button	Show
Share Button	Show
Print Button	Show
Help Button	Show
FullScreen Button	Show

3. Flash Display Settings

(1). Background Config

If you don't want to use the background in pre-set templates, you can design your own background. Set "Background Type" as "Image", "Pure Color" or "Gradient Color".

☐ Background Config	
Background Type	Image
☐ Pure Color	
Pure Color	0x808000
☐ Gradient Color	
Gradient Start Color	0xFF9900
Gradient End Color	0xe8ac4d
Gradient Angle	90

a. Image Background

Choose Image Style background, then choose "Picture" from computer, and define "Position".

☐ Background Image	
Image File	qImgUrl.jpg ...
Image Position	Tile

b. Pure Color Background

You can make your 3D book background simple with setting a "Pure Color":

☐ Pure Color	
Pure Color	0x808000

c. Gradient Color

☐ Gradient Color	
Gradient Start Color	0xFF9900
Gradient End Color	0xe8ac4d
Gradient Angle	90

3D PageFlip For PPT Utility

User Document

(2). Page Thickness and Auto Scale

Auto Scale	Yes
Tilt Angle	0
Page Thickness	4

You can show your book in original page size with un-checking the option "Auto Scale", or let the book show properly in different Flash Container with checking this option. The program helps to build page-flipping eBooks with real life-like book effect, you can set thickness per page.

You can define default tilt angle for your created digital book, the value you can set to is number between -20 and 20. The readers can change tilt angle manually too by clicking the "Tilt Angle" option or just wheel the mouse directly.

(3). Flip Orientation

This is option to define book flip orientation.

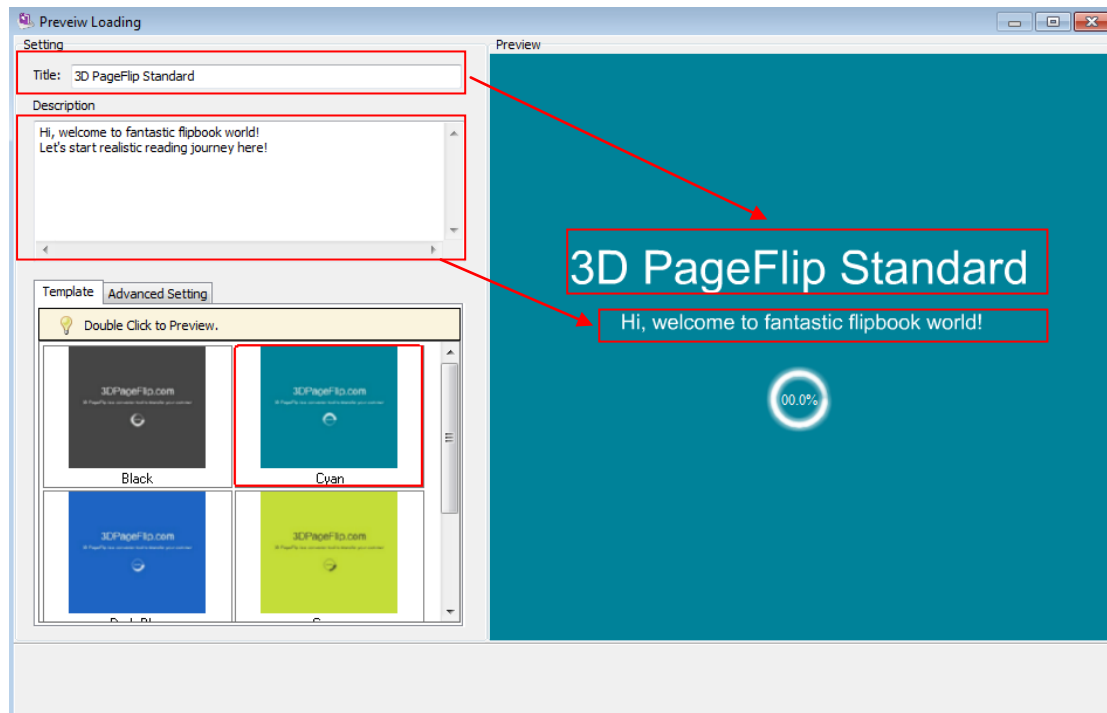

(4). Book Preloader Setting

With a book pre-loader, you can know how much time you will spend in waiting flipbook loading. You can define pre-loader's title, description, color as you like. Click the "Book Preloader Setting" to define. You can select the template directly from the "Template" Tab. Double click to review. Also, you can create a template by yourself via "Advance Setting" Tab.

3D PageFlip For PPT Utility

User Document

(5). Book Scale Percentage

You can change the book scale via this option. Input a suitable value in "Book Scale Percentage". 100 means the normal look. As below shows, left is with value 50 and right is with value 100.

Click "Apply Change" icon to apply the settings.

III. Flash Control Settings Panel

<input type="checkbox"/> Flash Control Settings	
GoogleAnalytics ID	
Share ID	

In the HTML output format, you can add statistics by using google analytics. You can get more information about Google Analytics ID from <http://www.google.com/analytics/> . And 3DPageFlip program uses AddThis sharing platform which supports hundreds of sharing channels. Just build your own user account and get account ID. Then after you publishing your create 3D eBook online, you can know how many people shared your eBook in your account record. More details please view info in the FAQ page as reference:
