## 3D PAGEFLIP PROFESSIONAL FOR MAC

Build Cool 3D page-flip eBook from PDF on Mac,  
create multimedia contents with 3D objects and 3D vision

## About 3D Pageflip Professional for Mac

3D Pageflip Professional for Mac is handy software to convert PDF files to 3D e-books with real book like effect in a few minutes. In addition, it allows you to create a series of multimedia content like 360 spinning objects, 3D video, links, buttons, etc. You can drag page corner to flip page, drag eBook to spin 360 degree in 3D panoramic background. Neither 3D programming technology nor Flash knowledge needed, just open your PDF file in the program, choose your prefer template to present the file, and then select one format to output, publish online to view locally without other plug-in software installed. No matter digital magazines, or electronic galleries, this program will impress your readers with its totally different look and effect.

Note: This product is distributed on a "Try before-you-buy" basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in your generated 3D page-flipping eBooks.

### Product features

1. Convert single or batch PDF to page flipping 3D eBook with multi-media embedded.
2. Define page range, page format, page quality and import links for imported PDF.
3. Edit pages with adding 360 degree spinning products, 3D video, YouTube movies, audios, links, SWF, text button, bitmaps buttons and YouTube videos.
4. Provide many different styles pre-designed templates, including 3D panoramic template.
5. Download more free themes to use: <http://www.3dpageflip.com/themes-2012.html> .
6. Export and save settings or projects for future use.
7. Enable Auto Flip with setting Flip Interval.

9. Turn page-turning sound on/off.
10. View eBook detail information.
11. Share eBook URL via Facebook, Twitter, Digg, etc.
12. Add bookmark on pages as notes for later reading.
13. Print out the whole eBook or a selected range of pages.
14. View page-flipping eBook in full screen.
15. Open in the Browser to a specific page by adding a page index to your URL.

E.G. [www.yourdomain.com/index.html?p=4](http://www.yourdomain.com/index.html?p=4).

## Quick Start

1. Launch the application via the desktop shortcut  ;

2. Click the "Import PDF" icon  to enter into Import PDF interface;

3. Click  icon to choose PDF file from your computer;

4. Click  icon to enter into main processing interface;

5. Define settings and page layout for eBooks, such as Title, info, logo, click "Apply

Change" icon  at last;

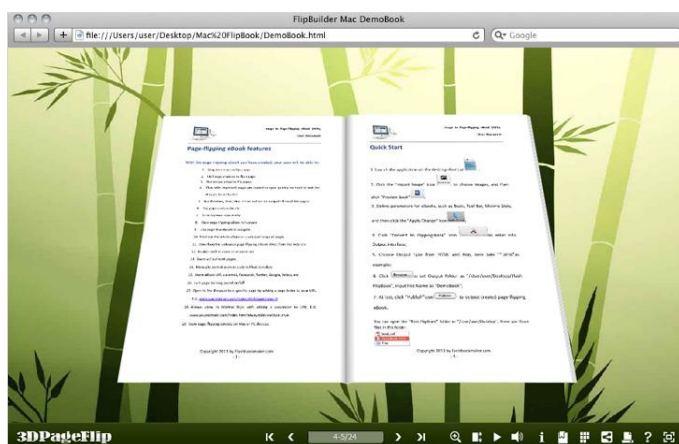

6. Click "Convert-3DBook" icon  to enter into Output interface;

7. Choose Output type from HTML and App, here take "\*.html" as example;

8. Click  to set Output Folder as "/User/user/Desktop/Mac FlipBook", input File Name as "DemoBook";

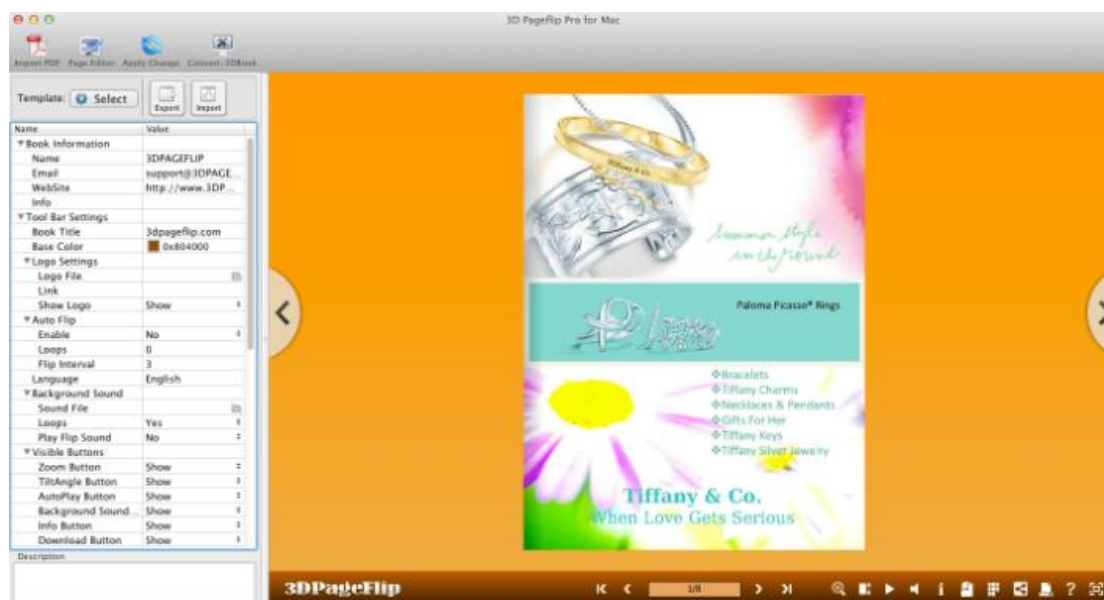

7. At last, click "Publish" icon  to output created page-flipping eBook.

You can open the "Mac FlipBook" folder in "/User/user/Desktop", there is a HTML file and a "files" folder. Open the "DemoBook.html" file to view your created page-flipping book via Web Browser, such as Internet Explorer, Google Chrome, Firefox, etc.

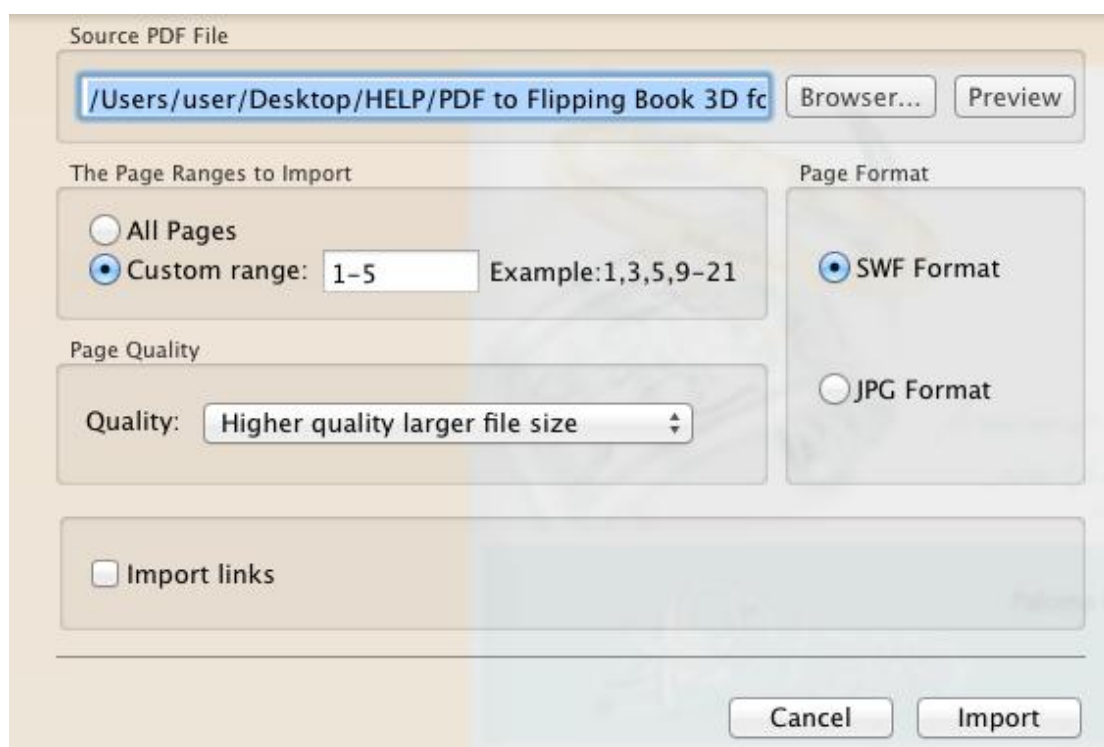

## Using 3D Pageflip Professional for Mac

### I. Import PDF Interface

# 3D PageFlip Professional for Mac

## User Document

### 1. Source PDF File

**Browse...**

Click this icon to open the PDF file you want to convert;

**Preview**

View content of added PDF file to clarify before converting.

### 2. The Page Ranges to Import

☒ **All pages**

Convert all pages to page-flipping eBook;

☒ **Custom range:**

Convert defined range page.

### 3. Page Quality

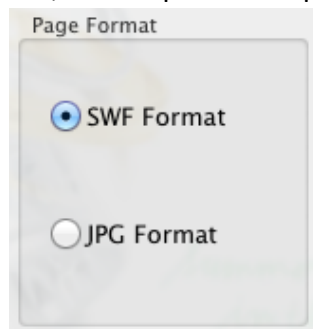

There are five types for Page Quality:

### 4. Page Format

You can choose the page format for import, including SWF file and JPG file. If you choose SWF, you can get a better output 3D eBook with higher quality. If you choose JPG, the output eBook page will get lower pix.

### 4. Import links

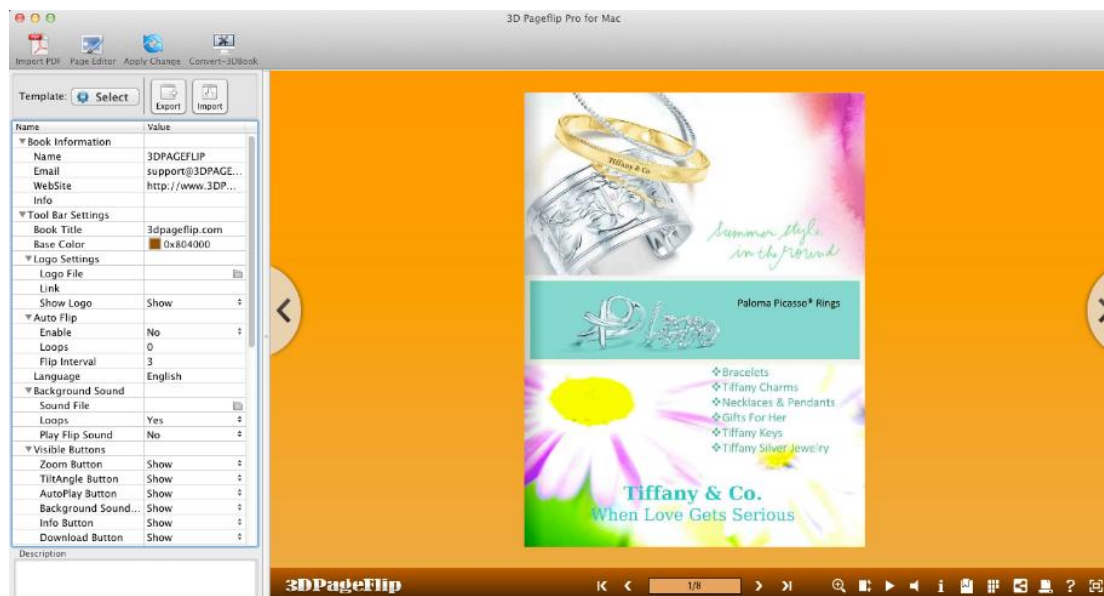

You can tick import links to import all PDF links.

**At last, click** **Import** **icon to enter into template setting interface.**

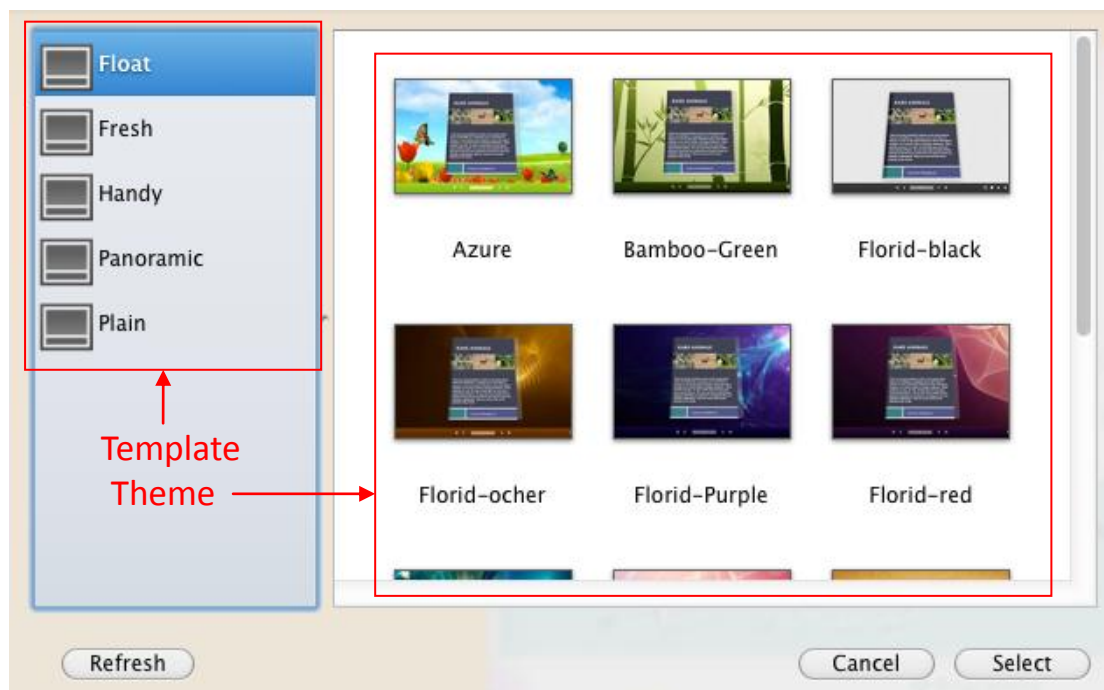

## II. Template Settings Interface

3D Pageflip Professional for Mac provides templates for you to use, you can do many settings according to your designs:

### 1. Select Template

Click "Select" icon to select templates from below interface, each template have its own style and layout:

## 3D PageFlip Professional for Mac

### User Document

You can choose theme from the software, create by yourself or download some exited themes from our website: <http://3dpageflip.com/themes-2012.html>.

## 2. Book Title

Book Title	3dpageflip.com
------------	----------------

Define the title for your 3D eBook which will be shown on the top of the "About" window.

## 3. Book Information

▼ Book Information	
Name	3DPAGEFLIP
Email	support@3DPAGE...
WebSite	http://www.3DP...
Info	

Define Book Information such as Name, Web Site and E-mail which will be shown in "About" window:

## 4. Base Color

Define Base Color as Tool Bar Color, About, Share, Print and Bookmark Window Background Color.

### 5. Tilt Angle

You can define default tilt angle for your created digital book, the value you can set to is number between 0 and 90. The readers can change tilt angle manually too by clicking the "Tilt Angle" icon  or just wheel the mouse directly.

### 6. Auto Scale

Allow the book to resize automatically or not when Flash Container size changes.

### 7. Analytics

#### (1). Google ID

In the HTML output format, you can add statistics by using Google analytics. You can get more information about Google Analytics ID from <http://www.google.com/analytics/>.

#### (2). Share ID

3D Pageflip Professional for Mac uses AddThis sharing platform (<http://www.addthis.com/>), you can build your user account and you will get your own ID. Then after you publishing your create 3D eBook online, you can know how many people shared your eBook in your account record. (View detailed [FAQ](#))

### 8. Background Config

If you don't want to use the background in pre-set templates, you can design your own background with Image or Color directly:

▼ Background Config	
Background Type	Image ⇅
▼ Image	
Image File	/Users/user/ 
Image Position	Fill ⇅
▼ Pure Color Settings	
Pure Color	 0x98D8B1
▼ Gradient Color	
Start Color	 0x99CC00
End Color	 0x339966
Gradient Angle	90

### 9. Auto Flip

To auto flip your eBooks, you can set "Yes" in "Auto Flip->Enable" option; then define the Loops (times to auto flip the book) and Flip Interval (seconds of staying on each page). After clicking the Auto Flip button  , the flipbooks will be flipped automatically according to your settings.

### 10. Logo Settings

Set logo which will show on the left side of the book tool bar:

### 11. Sound

If you want to add background sound to your flipbook, such as a song or other audio file, then click Open Folder icon to choose "Sound File" from your computer, then set "Sound Loops", "-1" stands for playing the sound file all the time while viewing flipbook, other value ( $N > 0$ ) stands for the times of playing the sound file, you can also define whether to play flip sound or not, Choose "Yes" you will get flip sound while you turn 3D eBook page:

▼ Background Sound	
Sound File	
Loops	Yes 
Play Flip Sound	No 

At last, click **Apply Change** icon to apply the settings.

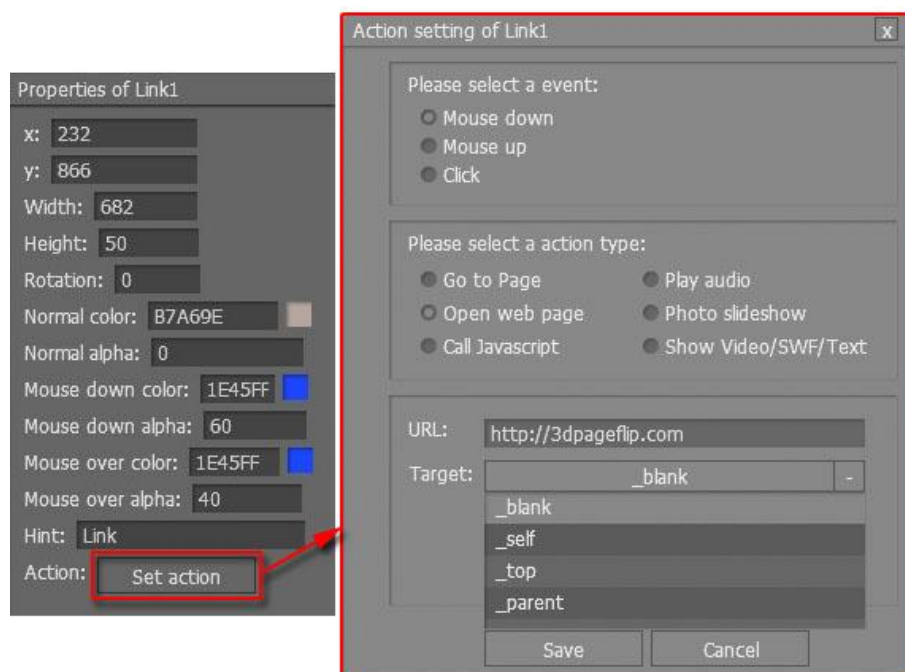

### III. Page Editor

Click "Page Editor" to add multi-media objects on pages:

#### (1). Add Link

Click the icon  and then draw a link box on the area you want to add link, then define properties in below panel:

You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself. For example, you can show a pop-up light box while readers clicking some image on page or pop-up a questionnaire or other Web Form by clicking some text. Just make sure the parameter you set in "Function" can be called in from HTML page.

**Example:** Check "Call Javascript function" as action type, then input Function as "testLightBox("Hello, this is a test")":

# 3D PageFlip Professional for Mac

## User Document

And then make sure the Javascript wrote into the index.html page as below image shows (the same as you set in "Link Function"):

## (2). Add Movie

Click icon  and draw an object on the page and insert FLV or MP4 movie:

Then you can select and edit the movie in below panel (define view in 3D Space or not, play and stop movie actions, etc.):

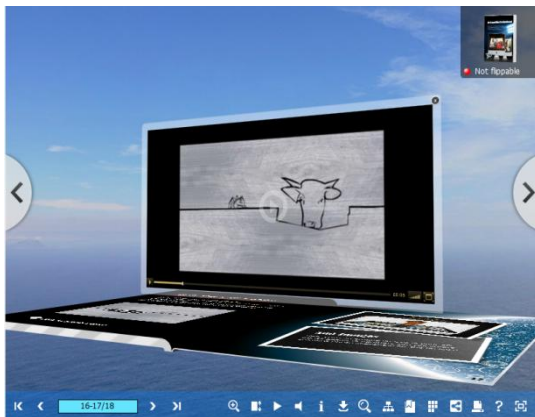

## 3D PageFlip Professional for Mac

### User Document

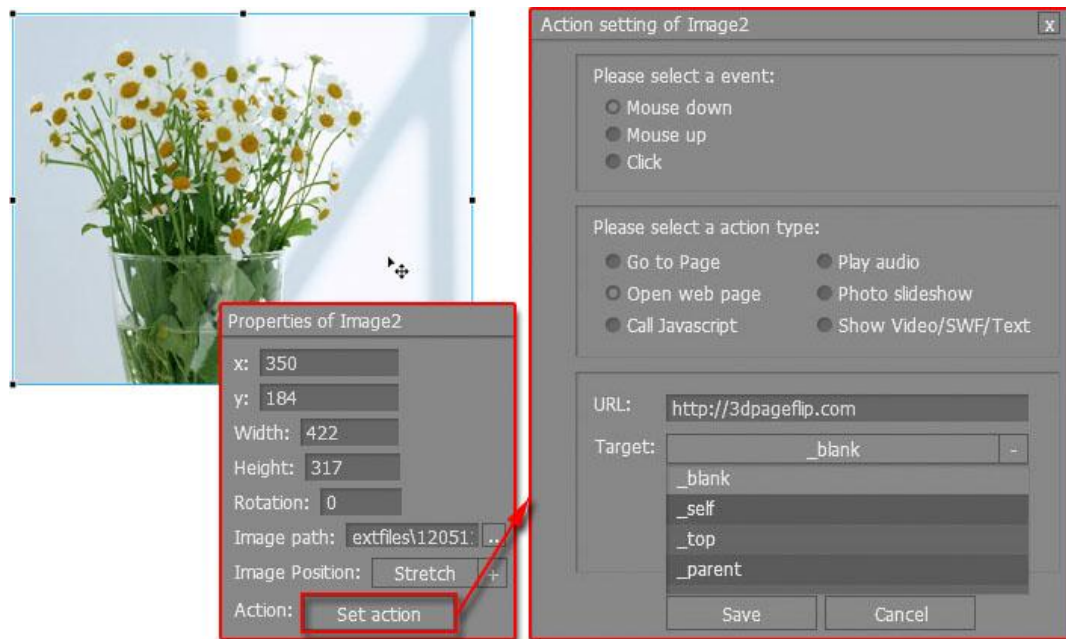

If you choose to **view in 3D space**, you can get the 3D video effect like this:

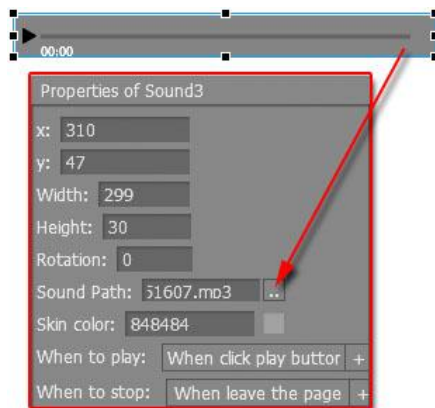

### (3). Add Image

Click the icon  to draw image box and then select image (.jpeg, .jpg, .png, .gif), set Action Options (the same as Link Action Options):

### (4). Add Sound

Click the icon  to draw sound box and then select sound file, set other options:

### (5). Add Flash

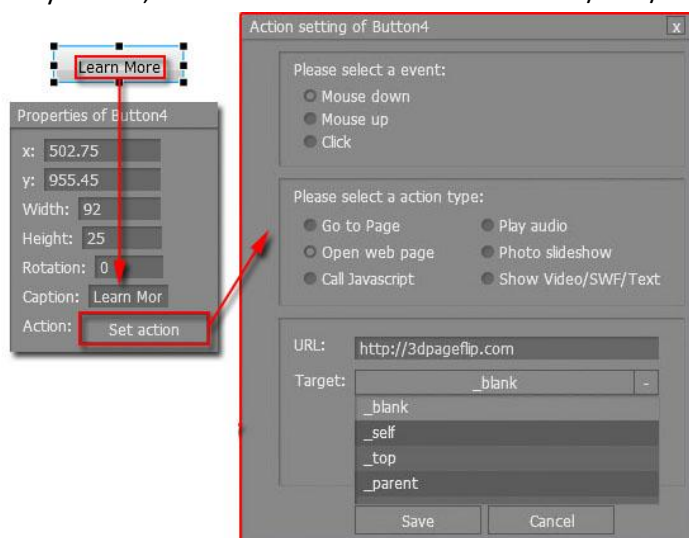

Click icon  to insert SWF flash into your defined area of 3D ebook page:

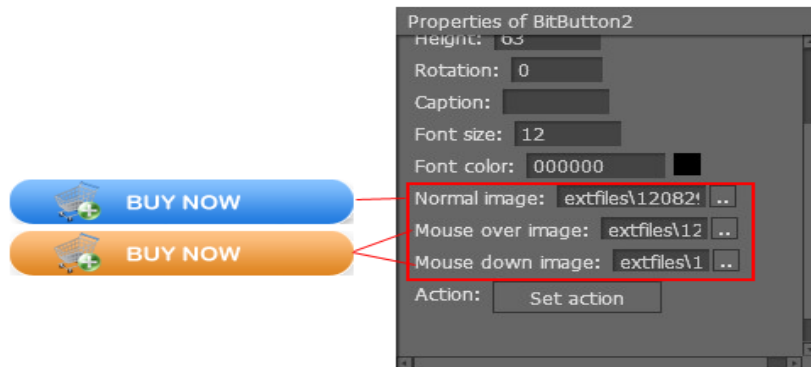

### (6). Add Button

Click icon  to draw an area for inserting your text button file with add text on button, and calling actions. The actions contain "Go to page", "Open web page", "Call Javascript", "Play audio", "Photo slideshow" and "Show Video/SWF/Text":

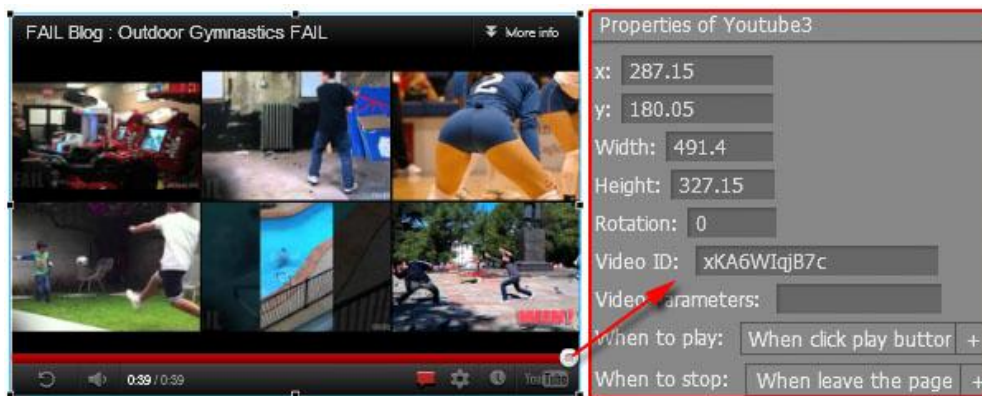

### (7). Add Bitmap Button

Click the icon  and draw an object in the right position of targeted page. You need to prepare two to three button images to create bitmap button. You can click "Normal image", "Mouse over image", "Mouse down image" to set button layout.

### (8). Add You Tube Video

Click the icon  and then draw a box on the page to insert You Tube video into pages directly. You just need to define the video ID directly. For example the video link is: <http://www.youtube.com/watch?v=xKA6WlqjB7c>, then the video ID is "xKA6WlqjB7c".

### (9). Create 360 degree product present

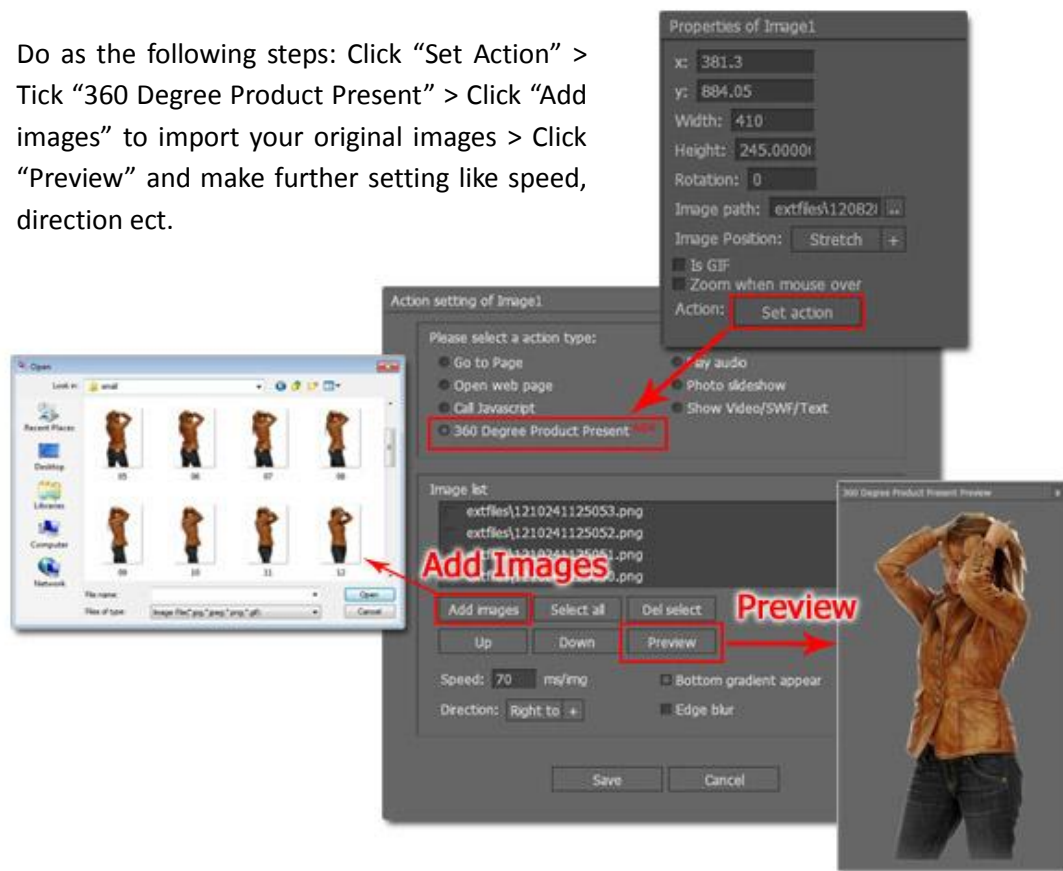

Click "Add Link" , Add Image , Add Button  or Add bitmap button  to create an object in flip page. Then set actions for these objects. One of the actions is 360 Degree Product Present. It can help you create 3D animation with 360 degree spinning. Before creation, you need to prepare a group of images for your products with 360 degree.

## 3D PageFlip Professional for Mac

### User Document

Do as the following steps: Click "Set Action" > Tick "360 Degree Product Present" > Click "Add images" to import your original images > Click "Preview" and make further setting like speed, direction ect.

View detailed steps in [How to create 3D object with 360 degree view in page flip book?](#)

**Besides, undo, redo, delete, cut, paste and copy.**

If you want to add same links, images, videos, audios to different pages, you don't have to repeat the "Link/Image/Video/Audio added" operations once and once again, just select the link object, click the "Edit->Copy" ( Ctrl+C ) and then go to the other page to click the "Edit->Paste" ( Ctrl+V ) directly.

View more details about how to use short cut key: [FAQ](#).

**After editing, click icon  to save objects and go to design window.**

#### IV. Output Interface

The screenshot shows the 'Output Interface' dialog box. It has three main sections: 'Output type', 'Output path', and 'Options'. In the 'Output type' section, the radio button for '\*.html' is selected, and the checkbox 'Also make mobile version' is checked. A dropdown menu for 'Select a template for mobile' is set to 'Slide'. Below this, it says 'Make flip book works on iPad, iPhone and Android mobile devices'. In the 'Output path' section, the 'Folder' field contains '/Users/user/Desktop/3D PageFlip Pro Der', with 'Browse...' and 'Open' buttons to its right. The 'File Name' field contains 'index'. In the 'Options' section, the 'Title' field contains 'Demo'. At the bottom right, there are 'Publish' and 'Cancel' buttons.

There are two Output types you can choose, **HTML** is for uploading created page-flipping ebook onto websites, and **APP** is to make executable application to run on Mac devices. What's more, you can Tick "Also make mobile version" to make your 3D eBook visual on iPad, iPhone, and Android mobile devices. There tow page turn effect for mobile to choose: Flip and Slide. You can define File Name and Title for your created page-flipping eBook.

About "How to make created eBooks available for others online", you can view details in below support page:

<http://www.3dpageflip.com/faq/Tip8.Upload-your-3D-eBook-online-with-ease.html>.
