

3D Pageflip Professional

Build Multimedia page flipping 3D eBook with PDF

About 3DPageflip Professional

Want to make your PDF books published with real 3D page turning effect to read on various digital devices? 3D PageFlip Professional will make your dream come true, which helps to convert your still PDF files into animated 3D page turning books, and more fantastic feature of the amazing software is that you can add multimedia music and videos on pages, even links, images, YouTube and flexible buttons, etc. Make the reading life of your audience more interesting and convenient now!

Note: This product is distributed on a "Try before-you-buy" basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in your generated page-flipping eBooks.

Product features

1. Convert single or batch PDF to page flipping 3D eBook with multi-media embedded.
2. Define page range, convert render engine, page quality and size for imported PDF.
3. Import PDF with links; import page text for search purpose; import table of content; Detect wide pages.
4. Edit pages with adding 360 degree spinning products, 3D video, YouTube movies, audios, links, SWF, text button, bitmaps buttons and YouTube videos.
5. Provide many different styles pre-designed templates, including 3D panoramic template.
6. Download more free themes to use: <http://www.3dpageflip.com/themes-2012.html> .
7. Export and save settings or projects for future use, record page info to save your multimedia designs.
8. Enable Auto Flip with setting Flip Interval.
9. Add background sound and play loops.
10. Set page thickness and make book auto scale in different Flash containers.
11. Input Presenter name, website address, Email and details info to show in About Window.
12. Set Flash buttons display language, define eBook language by yourself.
13. Set logo link and image, define color for Tool Bar.
14. Pre-set tilt angle while opening the eBook.
15. Set background with pure/gradient color or image directly.
16. Show or hide any button as you want.
17. Enable readers to sharing via Facebook, Twitter, iGoogle, etc, Sharing Analytics supported.
18. SEO and Google Analytics Integrated.
19. Output to different formats: HTML (publish online), ZIP (send via email), EXE (read separately).
20. Make Mobile Version to work on iPhone, iPad and Android devices, output Epub format and burn to CD as you want.

3D Digital eBook features

While reading your created page-flipping 3D eBook, readers can do:

1. Drag to turn page or click navigational buttons to turn pages.
2. Drag 3D eBook to spin in 360 degree in 3D panoramic background.
3. Double-click or click zoom in/out button to zoom in or zoom out pages in multi-level.
4. Watch view in 3D vision; Open a pop-up object with 360 degree spinning effect.
5. View your embedded flash, listen to your inserted music, view image slideshows, etc.
6. Manually define Tilt Angle or wheel mouse to change angle to view eBook pages.
7. View pages thumbnails to go to interested page quickly.
8. Flip pages automatically.
9. Turn page-turning sound on/off.
10. View eBook detail information.
11. Share eBook URL via Facebook, Twitter, Digg, etc.
12. Add bookmark on pages as notes for later reading.
13. Print out the whole eBook or a selected range of pages.
14. View page-flipping eBook in full screen.
15. Open in the Browser to a specific page by adding a page index to your URL.
E.G. www.yourdomain.com/index.html?p=4.

Quick Start

1. Start 3D Pageflip Professional via the desktop shortcut  ;
2. Click the "Import PDF" icon  to enter into Import PDF interface;
3. Click  icon to choose PDF file from your computer;
4. Click  icon to enter into main processing interface;
5. Define settings and page layout for eBooks, such as Title, Language, Share and Background, click "Apply Change" icon  at last;
6. Click "Convert to 3D Book" icon  to enter into Output interface;
7. Choose Output Type from HTML, ZIP and EXE, here take  as example;
8. Click  to set Output Folder as "C:\3dpageflipbook", input File Name as "DemoBook";
9. At last, click  icon to output created 3D page turning eBook.

Details on using 3D Pageflip Professional

There are three main designing parts in Design Setting panel for you to design page flipping 3D book: Tool Bar Settings, Flash Display Settings, and Flash Control Settings.

I. Home Panel

In this part, there are a series of basic functions: "Import PDF", "Save Project", "Open Project", "Page Editor", "Convert to 3D Book", "Batch Convert", "Help", "Option".

1. Import PDF and Project Options

(1). Import PDF

Click "Import PDF" icon  to choose PDF file from your computer:

A. You can define page range to import and convert;

B. Click "Application" button  to choose render engine for importing your PDF file. There are 3 different kinds of render engine for choose to avoid distortion for some special PDF files (Change option when PDF imported failed):

SWF: Much legible characters, smaller output size

Inner Library: Faster convert speed

C. Set Page Quality and Size to convert your PDF file:

D. Import links and text content from your PDF file to click or search in 3D book later.

(2). Import PDF links, text, and table of content

Import Link: Make PDF links available in output 3D eBook.

Import Search: Make PDF text searchable in 3D eBook.

Import Table of Content: import the existed table of content.

Detect Wide Pages: to help cut double-page into two pages for wide-page PDF.

(3). Project

Click "Save Project As..." in Files to save the imported files and current settings as a project file, and when you want to modify or complete the project, just click "Open Project" to edit the stored project directly. While editing, it's OK to use short cut key "Ctrl + S" to quickly save your project. Otherwise, you can open the output eBook file (HTML format) directly via "Open the project from output folder".

(4). Page Info

Click "File > Export Page Info" to save your multi-media editing. If you want to modify PDF after adding lots of links, flash, video, you can save page info and use it after re-import the PDF.

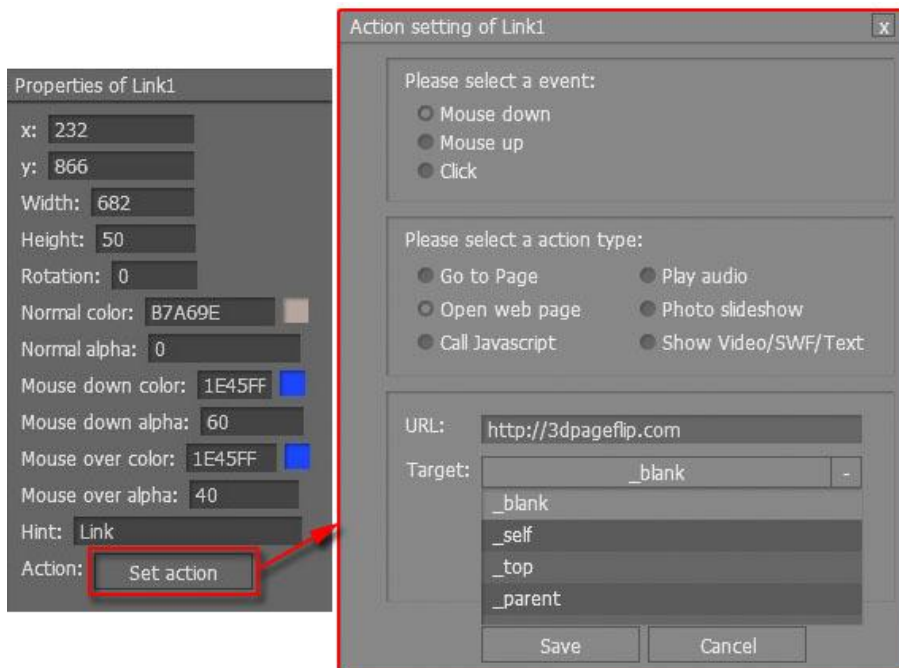

2. Edit Pages

Click "Page Editor"  to add multi-media objects on pages:

(1). Add Link

Click the icon  and then draw a link box on the area you want to add link, then define properties in below panel:

You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself. For example, you can show a pop-up light box while readers clicking some image on page or pop-up a questionnaire or other Web Form by clicking some

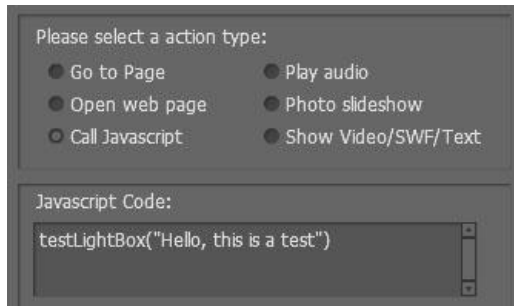

3D PageFlip Professional Utility

User Document

text. Just make sure the parameter you set in "Function" can be called in from HTML page.

Example: Check "Call Javascript function" as action type, then input Function as "testLightBox("Hello, this is a test")":

And then make sure the Javascript wrote into the index.html page as below image shows (the same as you set in "Link Function"):

```
<head>
<title>PDF-BenU brochure 2010-100dpi</title>
<meta http-equiv="Content-Type" content="text/html; charset=utf-8" />
<meta name="Keywords" content="" />
<meta name="Description" content="" />
<meta name="Generator" content="[Flip PDF version 3.0] at http://flipbuilder.com/" />
<!-- Include CSS to eliminate any default margins/padding and set the height of the html element and
the body element to 100%, because Firefox, or any Gecko based browser, interprets percentage as
the percentage of the height of its parent container, which has to be set explicitly. Initially,
don't display flashContent div so it won't show if JavaScript disabled.
-->
<style type="text/css" media="screen">
html, body { height:100%; }
body { margin:0; padding:0; overflow:auto; text-align:center;
background-color: #ffffff; }
#flashContent { display:none; }
</style>

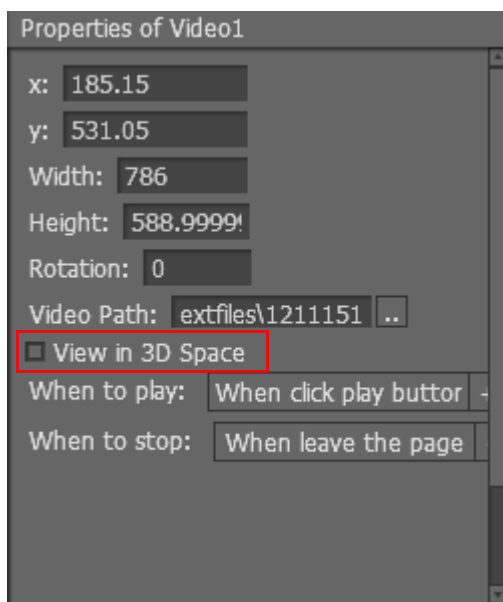

<script type="text/javascript">
function testLightBox(strFromFlash){
/**
do the things you want here!
**/
alert(strFromFlash);
}
</script>
```

(2). Add Movie

Click icon  and draw an object on the page and insert FLV or MP4 movie:

Then you can select and edit the movie in below panel (define view in 3D Space or not, play and stop movie actions, etc.):

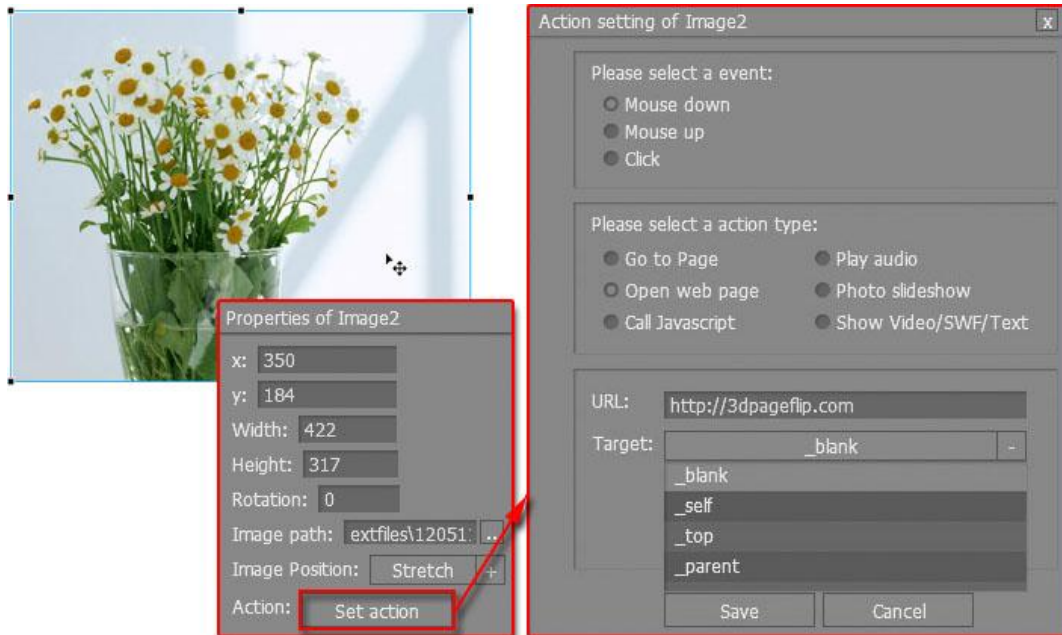

If you choose to **view in 3D space**, you can get the 3D video effect like this:

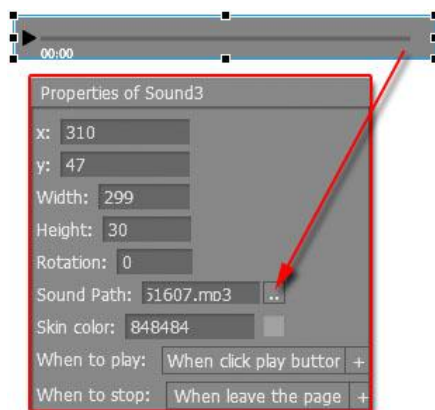

(3). Add Image

Click the icon  to draw image box and then select image (.jpeg, .jpg, .png, .gif), set Action Options (the same as Link Action Options):

(4). Add Sound

Click the icon  to draw sound box and then select sound file, set other options:

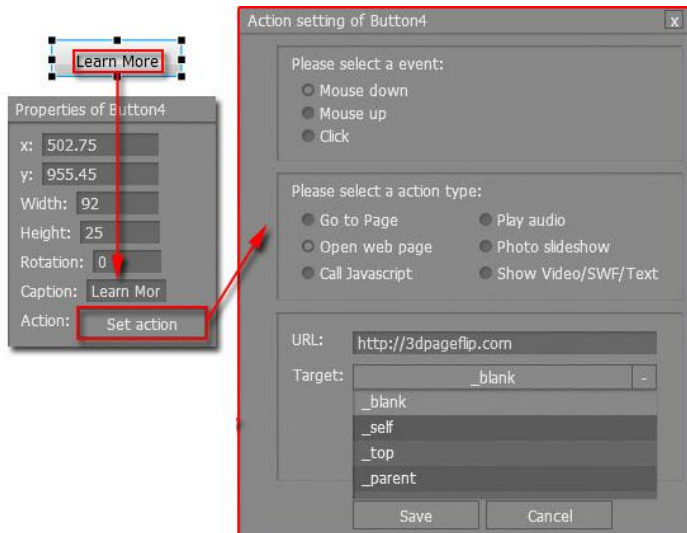

(5). Add Flash

Click icon  to insert SWF flash into your defined area of 3D ebook page:

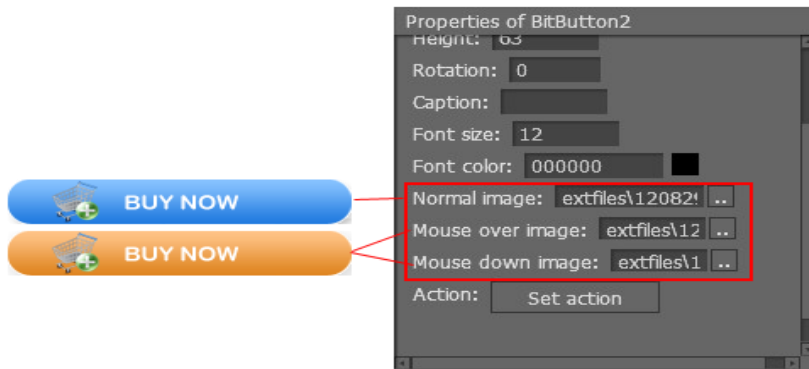

(6). Add Button

Click icon  to draw an area for inserting your text button file with add text on button, and calling actions. The actions contain "Go to page", "Open web page", "Call Javascript", "Play audio", "Photo slideshow" and "Show Video/SWF/Text":

(7). Add Bitmap Button

Click the icon  and draw an object in the right position of targeted page. You need to prepare two to three button images to create bitmap button. You can click "Normal image", "Mouse over image", "Mouse down image" to set button layout.

(8). Add You Tube Video

Click the icon  and then draw a box on the page to insert You Tube video into pages directly. You just need to define the video ID directly. For example the video link is: <http://www.youtube.com/watch?v=xKA6WlqjB7c>, then the video ID is "xKA6WlqjB7c".

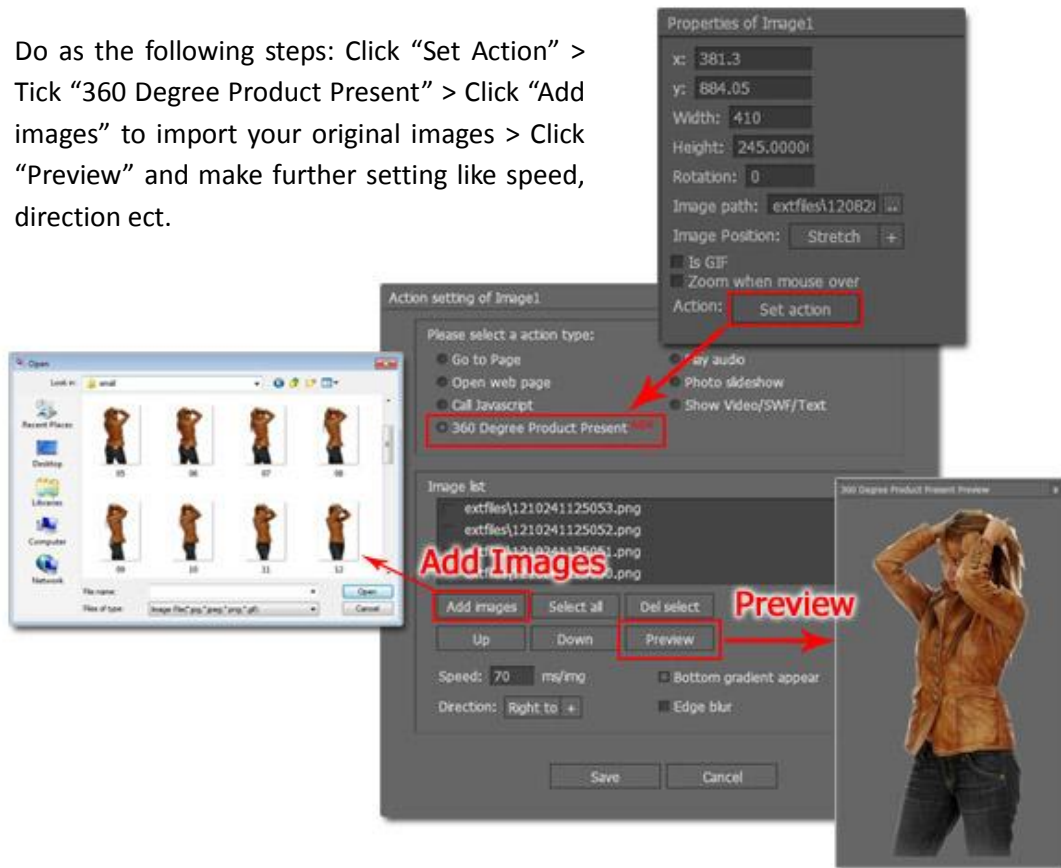

(9). Create 360 degree product present (New)

Click "Add Link" , Add Image , Add Button  or Add bitmap button  to create an object in flip page. Then set actions for these objects. One of the actions is 360 Degree Product Present. It can help you create 3D animation with 360 degree spinning. Before creation, you need to prepare a group of images for your products with 360 degree.

Do as the following steps: Click "Set Action" > Tick "360 Degree Product Present" > Click "Add images" to import your original images > Click "Preview" and make further setting like speed, direction ect.

View detailed steps in [How to create 3D object with 360 degree view in page flip book?](#)

Besides, undo, redo, delete, cut, paste and copy.

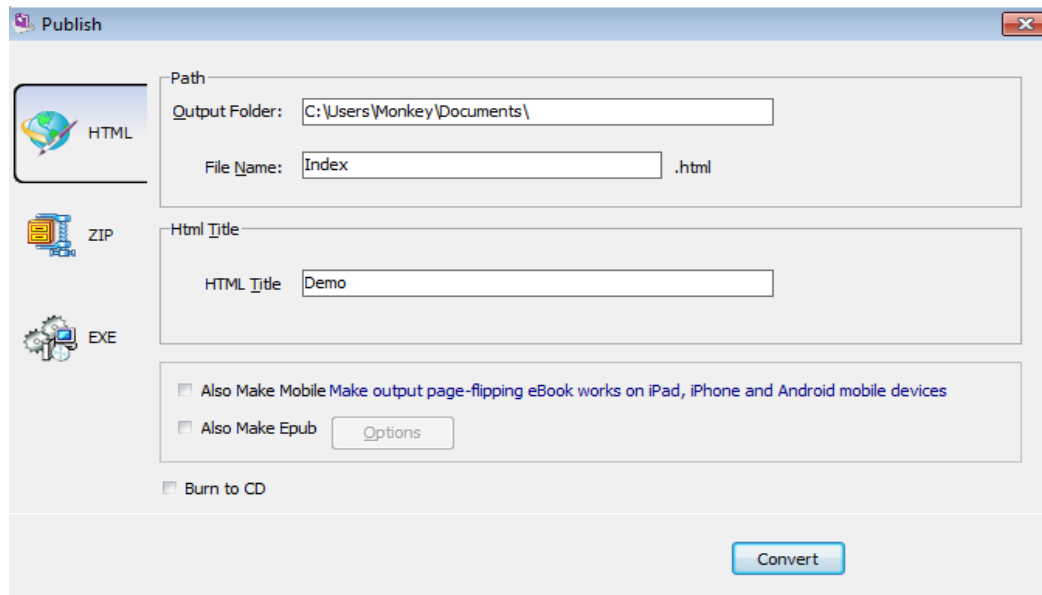

If you want to add same links, images, videos, audios to different pages, you don't have to repeat the "Link/Image/Video/Audio added" operations once and once again, just select the link object, click the "Edit->Copy" (Ctrl+C) and then go to the other page to click the "Edit->Paste" (Ctrl+V) directly.

View more details about how to use short cut key: [FAQ](#).

After editing, click icon  to save objects and go to design window.

3. Publishing Part

Click "Convert to 3D Book"  to enter into output window as below image shows:

(1). HTML

This output type is for uploading created page-flipping ebook onto websites. You can define HTML Title and other properties by clicking "Advanced" button:

Set Keywords and Description in the below interface:

HTML Meta Settings

Title:

Keywords:

Description:

You can also check option "Also Make Mobile", after uploading all files online (including
Copyright 2012 by 3DPageFlip.com

3D PageFlip Professional Utility

User Document

HTML, SWF, "files" and "mobile" folders), then you can visit the flipbook page through browser on iPad, iPhone and Android devices.

Or check "Also Make Epub" option to output Epub format book with HTML type together (EPUB became an official Professional of the International Digital Publishing Forum in September 2007, comparison of e-book readers contain: Android devices iPad, iPhone, and iPod Touch, Sony Reader).

Or even "Burn to CD" to save or distribute the book:

The screenshot shows a software interface with the following elements:

- A checked checkbox labeled "Burn to CD".
- A dropdown menu labeled "CD Writer" with the selected value "0:1:0,E: HL-DT-ST DVD-ROM DH40N A101".
- A text input field labeled "Disc title:" which is currently empty.
- An unchecked checkbox labeled "Make it automatically play the slide in CD".

(2). ZIP

This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can also define HTML Advanced Settings by clicking "Advanced" icon. Your recipients just need to uncompress the ZIP file and then they can view the HTML DemoBook instantly. You can also build Mobile version, Epub format book or burn to CD as you want.

(3). EXE

This type is for outputting 3D flipbook as a single executive file, easy storing and easy

3D PageFlip Professional Utility

User Document

viewing, you can also define Icon and Opening Window Size in Advanced Settings:

You can also burn the EXE eBook to CD.

After you complete all design and page edit work, click "Convert" to output your completed 3D book in selected format.

4. Batch Convert

3D PageFlip Professional Utility

User Document

1. Add PDF files

You can click "Add PDF" or "Add Folder" button to select PDF files from your computer.

2. Settings

(1). Output Type

There are four output type in Batch Convert interface for you to use, HTML, ZIP, EXE and "Also Make Mobile" option. More details you can view "Publish Part" in Home Panel.

(2). Path

Define Output Folder and File Name for the output 3D books, you can use PDF FileName, Title, Author or Subject as book name directly.

(3). Options

You can also set HTML Title, and click "Advanced" button to define HTML metadata, like Keywords, Description, Script, etc. Check "Merger All PDF Files" option to combine all PDF files into a single 3D book.

(4). Merge PDFs

Tick to merge all PDF files into one, and you will get one 3D eBook totally.

Merge All PDF Files to One

5. Help Part

Click "About" to know the program version information and your register information, click "Help" to read manual of the program.

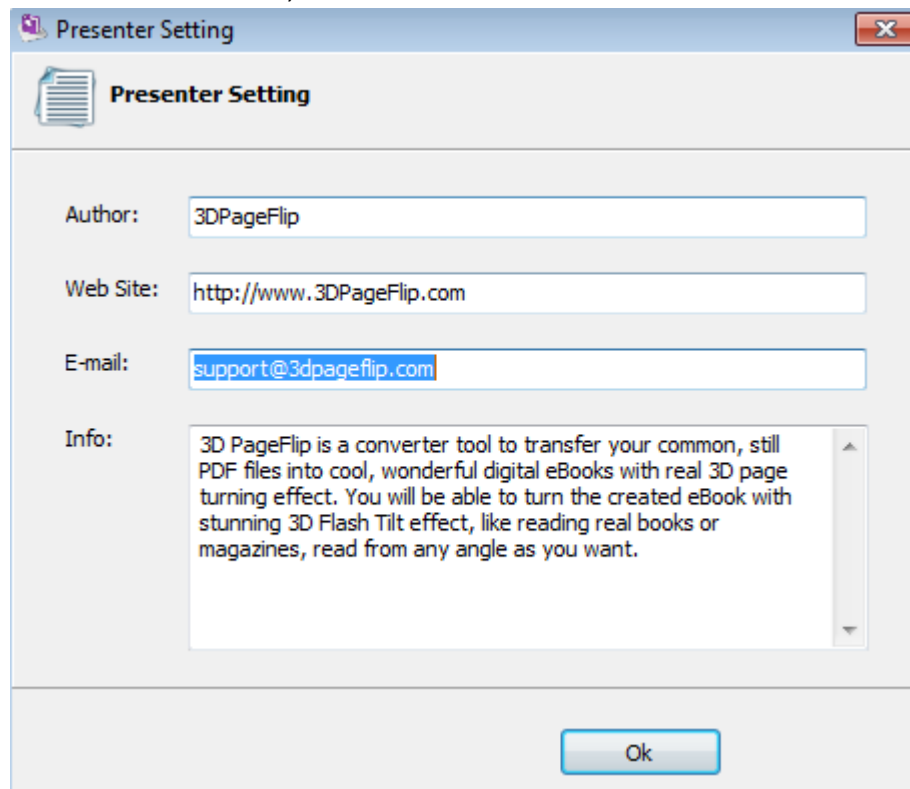

6. Option Part

(1). Flash Information

Click "Flash Information" option and you will be able to define information about eBook such as Author, Web Site and E-mail which will be shown in "About" window:

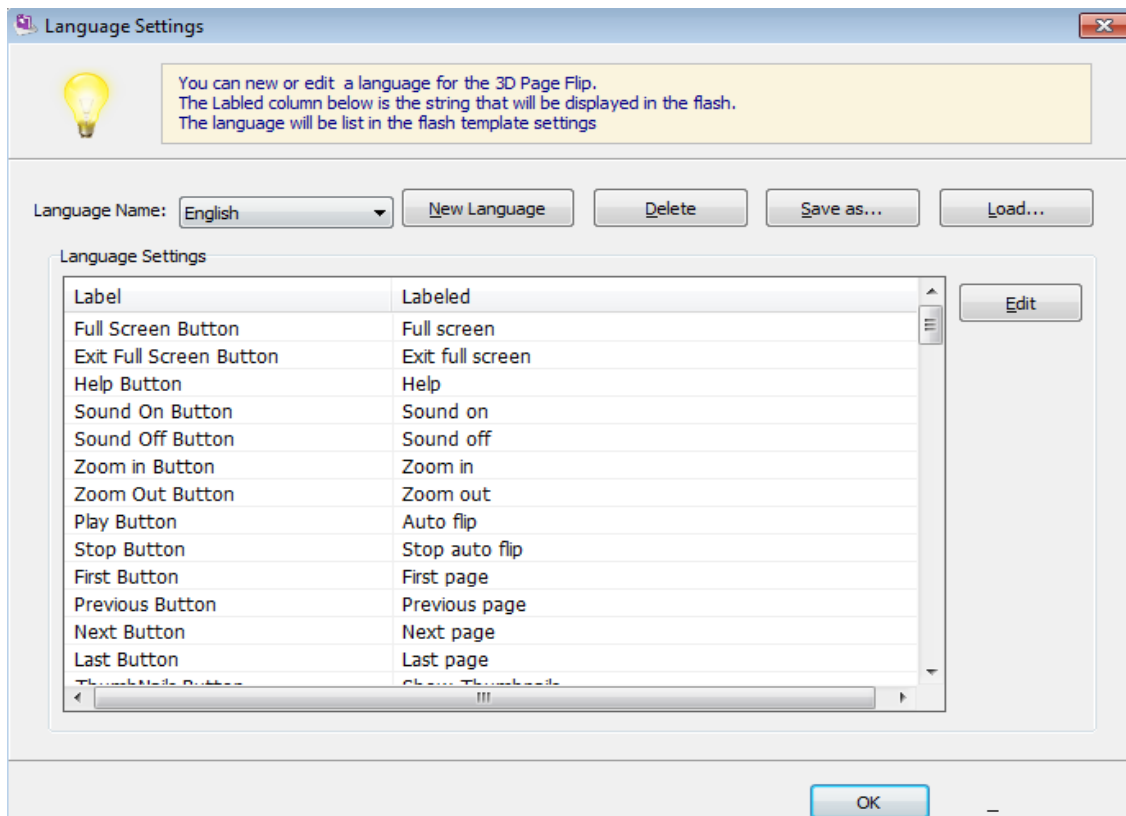

Click "About" button  the below window will pop up instantly:

(2). Flash Language

If you want to use another display language for your 3D flipbook, you can click "Flash Language" to enter into the Language Settings interface as below shows:

3D PageFlip Professional Utility

User Document

As the tips explaining, the "Labeled" column lists the buttons and instructions on Flash books in defined language, and the program provides you two different languages for you to use: English and Chinese. You can also add other language for your own uses:

1. Click the button  and define name for the new language:

Click "OK" to save the new language in the list;

2. Choose the first label and click "Edit" button , define new language text in "Labeled" box, then click "Save And Edit Next" (Alt+S):

3. At last, you can get all Labels translated into your new language.

You can delete unwanted language: 

Or save your edited new language file as XML or TXT file: 

Load language file saving before for current using: 

(3). Flash Information

Here you can set password to 3D Book in order to protect your digital publication. After that, when someone open the book, he will be asked to enter the password. If not, he can't view the eBook.

Firstly, Click "Flash Security"  in "Option" to enter setting interface. Then choose "Single Password" and type in your password.

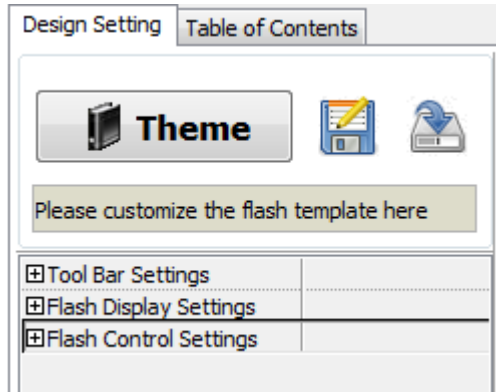

There is a personalized option: Exclude Front Pages. Set a page number, all latter pages can't be viewed without inputting password.

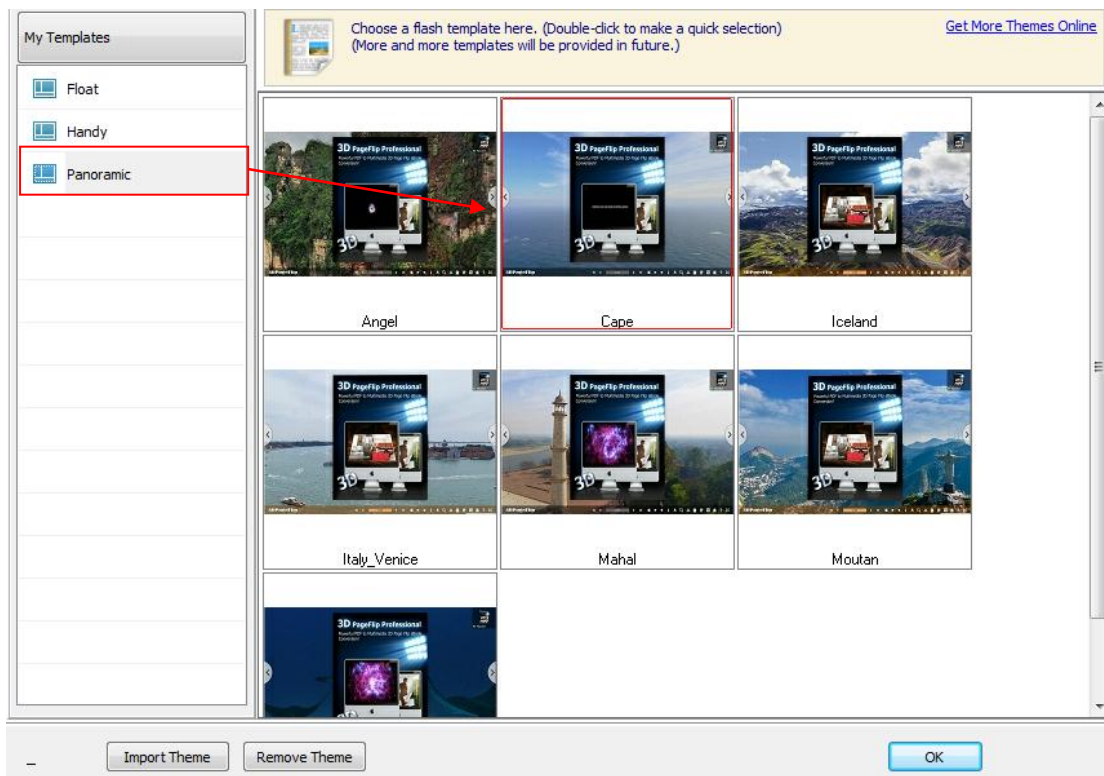

II. Design Setting Panel

In this part, you can design your 3D book layout with stunning own style. There are templates for selecting and three main setting parts for decorating: "Tool Bat Settings", "Flash Display Settings", "Flash Control Settings".

1. Template Part

Click "Theme" icon  to select templates from below interface, there are three types, including Float, Handy and 3D Panoramic:

3D PageFlip Professional Utility

User Document

If you select the Panoramic template, you will gain cool 3D background scene. In the right top corner, there is a control panel, you can drag the little book in the panel to spin eBook in 360 degree. Double click the little book to go back to default state. If the light is red, you can't turn page. If it's green, you can turn page.

After selecting a pre-define template, you can do a lot of settings in Page Layout panel which will be introduced later, and then you can click "Export Theme" to save our settings for later uses by clicking button "Import Theme" directly. Download more free themes to use: <http://www.3dpageflip.com/themes-2012.html> .

2. Tool Bar Settings

(1). Tool Bar Color and eBook Title

Tool Bar Settings	
Book Title	3dpageflip.com
Base Color	0xFF0000

You can define the "Base Color" for the tool bar and other windows.

Define the title for your 3D eBook which will be shown on the top of the "About" window.

(2). Logo Settings

Check "Show Logo" option to display your logo on the left side of the tool bar (165*35 is the recommended size of your logo image), you can also add link on the logo to let readers to click on the logo and go to your website directly.

(3). Auto Flip

Auto Flip	
Enable	Yes
Loops	0
Flip Interval	3

To auto flip your eBooks, you can set "Enable->Yes", then define loops and Flip Interval (seconds of staying on each page). After clicking the Auto Flip button, the flipbooks will be flipped by staying 3 seconds per page.

(4). Background Sound

Background Sound	
Sound File	...
Loops	Yes
Play Flip Sound	No

If you want to add background sound to your flipbook, such as a song or other audio file, click "Sound File" to choose audio from your computer, then set "Loops->Yes". The "Play Flip Sound" option is to help you define whether play page flipping sound or not when flip pages.

(5). Visible Buttons

Go to "Visible Buttons" option to define show or hide icons on the toolbar, including Zoom, AutoPlay, Info, Thumbnail, Print, Help, Tilt Angle, Background Sound, Bookmark, Share and FullScreen.

☐ Visible Buttons	
Zoom Button	Show
TiltAngle Button	Show
AutoPlay Button	Show
Background Soun...	Show
Info Button	Show
Bookmark Button	Show
Thumbnail Button	Show
Share Button	Show
Print Button	Show
Help Button	Show
FullScreen Button	Show

3. Flash Display Settings

(1). Background Config

If you don't want to use the background in pre-set templates, you can design your own background. Set "Background Type" as "Image", "Pure Color" or "Gradient Color".

☐ Background Config	
Background Type	Image
☐ Pure Color	
Pure Color	0x808000
☐ Gradient Color	
Gradient Start Color	0xFF9900
Gradient End Color	0xe8ac4d
Gradient Angle	90

a. Image Background

Choose Image Style background, then choose "Picture" from computer, and define "Position".

☐ Background Image	
Image File	gImgUrl.jpg ...
Image Position	Tile

b. Pure Color Background

You can make your 3D book background simple with setting a "Pure Color":

☐ Pure Color	
Pure Color	0x808000

c. Gradient Color

☐ Gradient Color	
Gradient Start Color	0xFF9900
Gradient End Color	0xe8ac4d
Gradient Angle	90

(2). Page Thickness and Auto Scale

Auto Scale	Yes
Tilt Angle	0
Page Thickness	4

You can show your book in original page size with un-checking the option "Auto Scale", or let the book show properly in different Flash Container with checking this option. The program helps to build page-flipping eBooks with real life-like book effect, you can set thickness per page.

You can define default tilt angle for your created digital book, the value you can set to is number between -20 and 20. The readers can change tilt angle manually too by clicking the "Tilt Angle" option or just wheel the mouse directly.

Click "Apply Change" icon to apply the settings.

III. Flash Control Settings Panel

Flash Control Settings	
GoogleAnalytics ID	
Share ID	

In the HTML output format, you can add statistics by using google analytics. You can get more information about Google Analytics ID from <http://www.google.com/analytics/>. And 3DPageFlip program uses AddThis sharing platform which supports hundreds of sharing channels. Just build your own user account and get account ID. Then after you publishing your create 3D eBook online, you can know how many people shared your eBook in your account record. More details please view info in the FAQ page as reference:

<http://www.3dpageflip.com/faq/9.How-to-enable-readers-to-share-published-3D-eBook-online-with-analyzing-embedded.html> .

License Agreements

All copyrights to 3DPageflip Professional (the Software) are exclusively owned by 3DPageFlip.com. For more information, visit our website at www.3dpageflip.com.

Anyone may use this software but all the page-flipping eBooks generated will automatically have a demo watermark on the first page of them. To remove the limitation you must register.

Once registered, the user is granted a non-exclusive license to use the Software on one computer (i.e. a single CPU) at a time. The registered Software may not be rented or leased, but may be permanently transferred, if the person receiving it agrees to terms of this license.

The Software unregistered (trial) version may be freely distributed, provided the distribution package is not modified. No person or company may charge a fee for the distribution of the Software without written permission from the copyright holder.

THE SOFTWARE IS DISTRIBUTED "AS IS". NO WARRANTY OF ANY KIND IS EXPRESSED OR IMPLIED. YOU USE AT YOUR OWN RISK. THE AUTHOR WILL NOT BE LIABLE FOR DATA LOSS, DAMAGES, LOSS OF PROFITS OR ANY OTHER KIND OF LOSS WHILE USING OR MISUSING THIS SOFTWARE.

You may not use, copy, emulate, clone, rent, lease, sell, modify, decompile, disassemble, otherwise reverse engineer, or transfer the licensed Software, or any subset of the licensed Software, except as provided for in this agreement. Any such unauthorized use shall result in immediate and automatic termination of this license and may result in criminal and/or civil prosecution.

If you do not agree with the terms of this license you must remove the Software files from your storage devices and cease to use the product.

How to Order

Order Online (<http://www.3dpageflip.com>) or Order Toll Free 1-877-353-7297 (When you order toll free just give the operator the product number of the product you would like).

How to purchase online?

1. Select a license type above, and click [Buy Now]
2. Select the currency that you want to use. (You can also continue shopping)
3. Fill billing information and select a payment method. (Your information is safe with us)
4. Check the information you filled previously and click "Place Secure Order"

Other Order Ways—With Phone/Mail/Fax/Check:

If you are not comfortable ordering online with a credit card, you are welcome to choose an offline order option in the payment section of the order process. We accept mail, fax, wire, and PO (if applicable) ordering options in addition to ordering online. We also provide phone orders through our 24x7 order desk at 1-877-353-7297, or (952) 646-5331 for International Callers.

Please note that all of the offline ordering options do have additional fees for processing. To place an order by mail, fax, wire, and PO (when applicable), use the online form and then choose one of these payment options found in the Payment Method section of the form. Once submitted online, the appropriate information will be provided to you in your web browser to send your payment to us offline.

100% unconditional 30 Day Money Back Guarantee

Want to custom the program or have other questions about purchase?
Contact us at support@3dpageflip.com .

Support

You can easily search or browse our frequently asked questions, learn tutorials about products, and get your registration code back. If you don't get a satisfied solution via above ways, please don't hesitate to contact support team for help.

1. Frequently Asked Questions

You can find answers to questions about technique issues here:
<http://www.3dpageflip.com/faq.html>

2. Get lost license code

Click here to look up the order » (<http://www.regnow.com/cs/orderStatus>)

You can pull up a copy of your order by entering your email address. After you find your order, you may view its status, view details of your order (including the license key), and obtain the invoice.

3. Contact Us

If you have other questions or requirements, contact us directly through our support Email: support@3dpageflip.com, we will respond you ASAP.
