You can open the "3dpageflipbook" folder in "C:", Open the "DemoBook.html" file to view your created 3D eBook via Web Browser, such as Internet Explorer, Google Chrome, Firefox, etc.
Using 3D Pageflip Standard

I. Home Panel

In this part, there are a series of basic functions: "Import PDF", "Save Project", "Open Project", "Convert to 3D Book", "Batch Convert", "Help", "Option".
1. Import PDF and Project Options

(1). Import PDF

Click "Import PDF" icon to choose PDF file from your computer.

A.   You can define Page Quality and Size to convert your PDF file:

Pages Quality and Size

Quality And Size: Higher quality larger file size

Higher quality larger file size
High quality large file size
Medium quality medium file size
Low quality small file size
Lower quality smaller file size

⚠ High values pro... ...pace and mroe time to download.

B.   Click "Application" button [Application] to choose render engine for importing your PDF file.

3DPageflip Standard provides 3 Different kinds of render engine for choose to avoid distortion for some special PDF files (Change option when PDF imported failed):
SWF: Much legible characters, smaller output size
Inner Library: Faster convert speed

(2). Import PDF links, text, and table of content
Import Link: Make PDF links available in output 3D eBook.
Import Search: Make PDF text searchable in 3D eBook.
Import Table of Content: import the exited table of content.
Detect Wide Pages: to help cut double-page into two pages for wide-page PDF.

☑ Import Link   ☑ Import Search   ☑ Import Table of Content   ☑ Detect Wide Pages
(3). Project
Click "Save Project As…" in Files to save the imported files and current settings as a project file, and when you want to modify or complete the project, just click "Open Project" to edit the stored project directly. While editing, it's OK to use short cut key "Ctrl + S" to quickly save your project. Otherwise, you can open the output eBook file (HTML format) directly via "Open the project from output folder".

Files Convert Option Help

Import PDF   Ctrl+I
Page Editor   Ctrl+E

Save Project   Ctrl+S
Save Project as…
Open the project from output folder
Open Project   Ctrl+O

Recent Projects   ▶
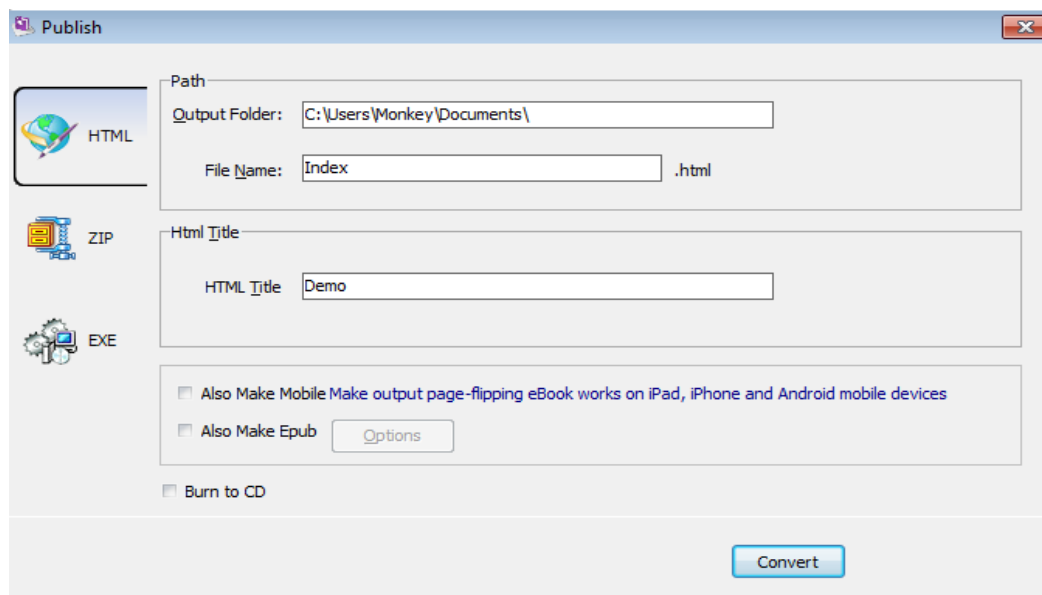

Export Current Settings as Theme

(4). Page Info

Click "File > Export Page Info" to save your multi-media editing. If you want to modify PDF after adding lots of links, flash, video, you can save page info and use it after re-import the PDF.

Export Page Info

Import Page Info
2. Publishing Part

Click "Publish for Flipbook 3D" to enter into publishing interface as below image shows:

Output types:

(1). HTML

This output type is for uploading created page-flipping ebook onto websites. You can define HTML Title and other properties by clicking "Advanced" button:

Set Keywords and Description in the below interface:

(2). ZIP
This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can also define HTML Advanced Settings by clicking "Advanced" icon. Your recipients just need to uncompress the ZIP file and then they can view the HTML DemoBook instantly:

(3). EXE

This type is for outputting 3D flipbook as a single executive file, easy storing and easy viewing, you can also define Icon and Opening Window Size in Advanced Settings:

(4). Mobile Version

You can even output Mobile Version while choosing HTML or ZIP format at the same time.

After creating mobile versions, you just need to output all files online (including HTML, SWF, "files" and "mobile" folders), then you can visit the flipbook page through browser on iPad, iPhone and Android devices.

(5). Epub format

EPUB became an official standard of the International Digital Publishing Forum (IDPF) in September 2007. Comparison of e-book readers contain: Android devices (using FBReader, Aldiko), iPad, iPhone, and iPod Touch (Lexcycle Stanza or iBooks on iOS 3.2+), Sony Reader.

(6). Burn to CD

After choosing output type, then check the option "Burn to CD", set "CD Writer", define "Disc title".

At last click **button to output flipbook in defined type.**

3. Batch Convert

1. Add PDF files

You can click "Add PDF" or "Add Folder" button to select PDF files from your computer.

2. Settings

(1). Output Type

There are four output type in Batch Convert interface for you to use, HTML, ZIP, EXE and "Also Make Mobile" option. More details you can view "Publish Part" in Home Panel.

(2). Path

Define Output Folder and File Name for the output 3D books, you can use PDF FileName, Title, Author or Subject as book name directly.

(3). Options

You can also set HTML Title, and click "Advanced" button to define HTML metadata, like Keywords, Description, Script, etc. Check "Merger All PDF Files" option to combine all PDF files into a single 3D book.
(4). Merge PDFs

Tick to merge all PDF files into one, and you will get one 3D eBook totally.
☐ Merge All PDF Files to One

Application

4. Help Part

Click "About" to know the program version information and your register information, click "Help" to read manual of the program.

5. Option Part

(1). Flash Information

Flash Information

Flash Language

Flash Security

Click "Flash Information" option and you will be able to define information about eBook such as Author, Web Site and E-mail which will be shown in "About" window:

Click "About" button the below window will pop up instantly:

(2). Flash Language

If you want to use another display language for your 3D flipbook, you can click "Flash Language" to enter into the Language Settings interface as below shows:

As the tips explaining, the "Labeled" column lists the buttons and instructions on Flash books in defined language, and the program provides you two different languages for you to use: English and Chinese.   You can also add other language for your own uses:

1. Click the button   [New Language]   and define name for the new language:
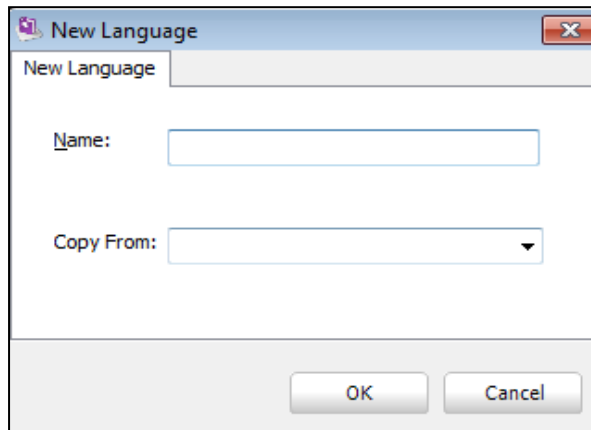

Click "OK" to save the new language in the list;

2. Choose the first label and click "Edit" button , define new language text in "Labeled" box, then click "Save And Edit Next" (Alt+S):
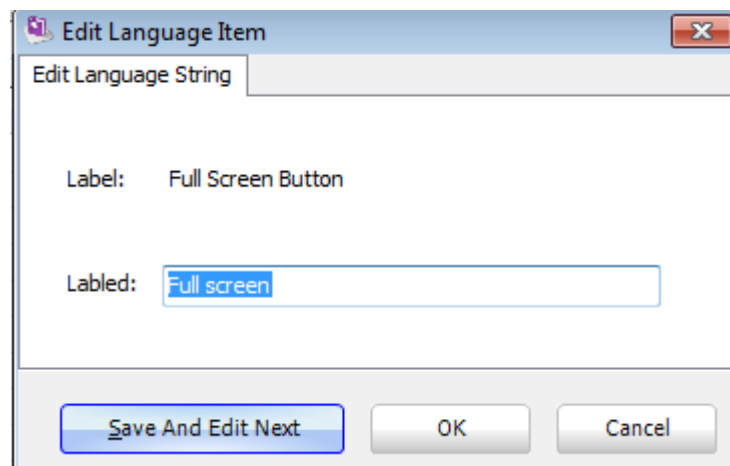

3. At last, you can get all Labels translated into your new language.

You can delete unwanted language:
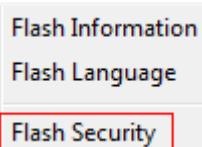

Or save your edited new language file as XML or TXT file:

Load language file saving before for current using:

(3). Flash Information

Here you can set password to 3D Book in order to protect your digital publication. After that, when someone open the book, he will be asked to enter the password. If not, he can't view the eBook.

Firstly, Click "Flash Security" [Flash Security] in "Option" to enter setting interface. Then choose "Single Password" and type in your password.

There is a personalized option: Exclude Front Pages.
Set a page number, all latter pages can't be viewed without inputting password.

II. Design Setting Panel

In this part, you can design your 3D book layout with stunning own style. There are templates for selecting and three main setting parts for decorating: "Tool Bat Settings", "Flash Display Settings", "Flash Control Settings".

1. Template Part

Click "Theme" icon [Panoramic] to select templates from below interface, there are three types, including Float, Handy and 3D Panoramic:
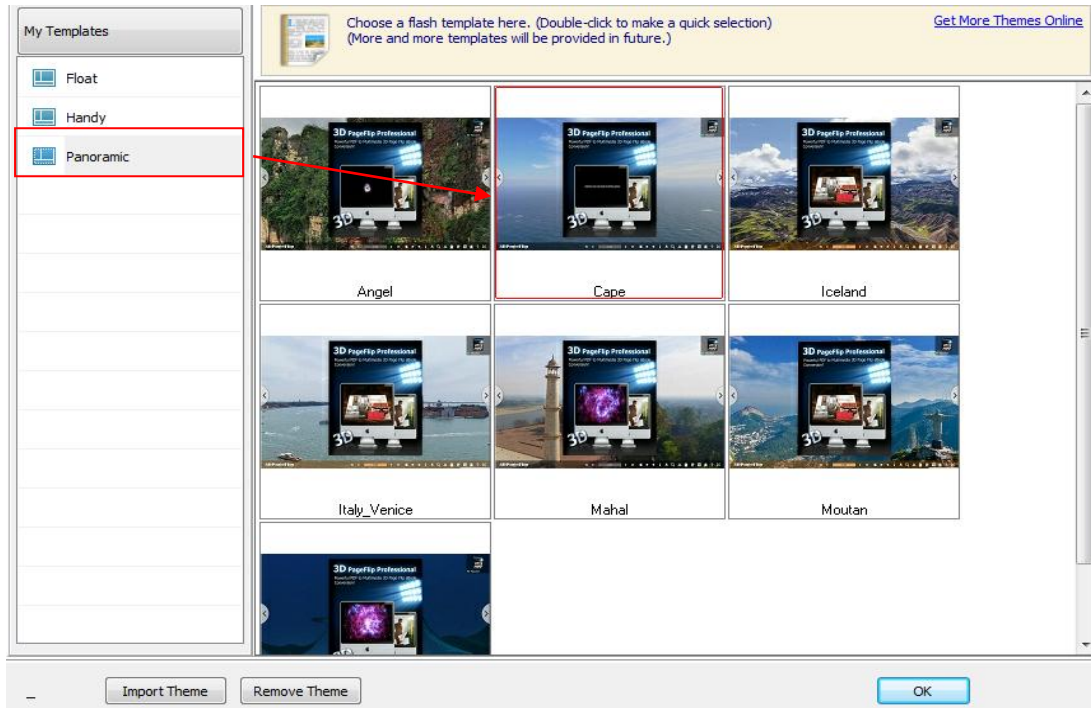

If you select the Panoramic template, you will gain cool 3D background scene. In the right top corner, there is a control panel, you can drag the little book in the panel to spin eBook in 360 degree. Double click the little book to go back to default state. If the light is red, you can't turn page. If it's green, you can turn page.
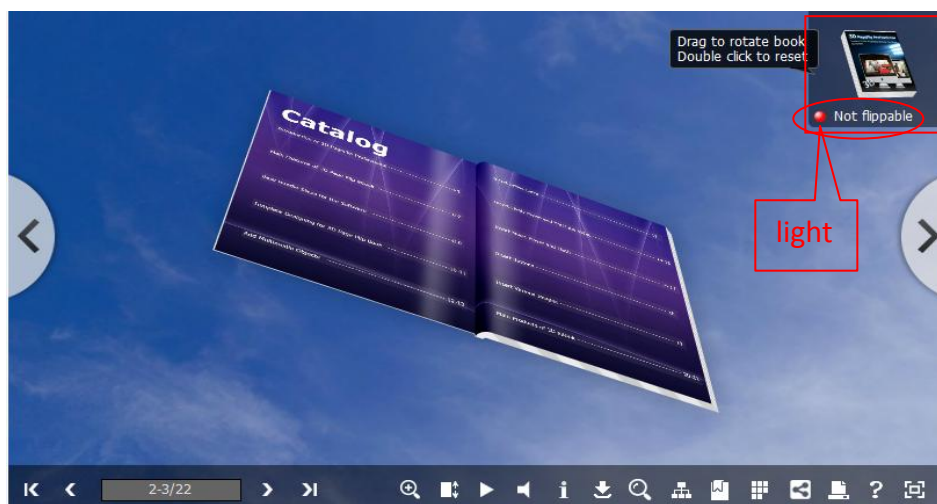

After selecting a pre-define template, you can do a lot of settings in Page Layout panel which will be introduced later, and then you can click "Export Theme" to save our settings for later uses by clicking button "Import Theme" directly. Download more free themes to use: http://www.3dpageflip.com/themes-2012.html .

2. Tool Bar Settings

(1). Tool Bar Color and eBook Title

You can define the "Base Color" for the tool bar and other windows.

Define the title for your 3D eBook which will be shown on the top of the "About" window.

(2). Logo Settings

Check "Show Logo" option to display your logo on the left side of the tool bar (165*35 is the recommended size of your logo image), you can also add link on the logo to let readers to click on the logo and go to your website directly.

(3). Auto Flip

To auto flip your eBooks, you can set "Enable->Yes", then define loops and Flip Interval (seconds of staying on each page). After clicking the Auto Flip button, the flipbooks will be flipped by staying 3 seconds per page.

(4). Background Sound

Background Sound	
Sound File	...
Loops	Yes
Play Flip Sound	No

If you want to add background sound to your flipbook, such as a song or other audio file, click "Sound File" to choose audio from your computer, then set "Loops->Yes". The "Play Flip Sound" option is to help you define whether play page flipping sound or not when flip pages.

(5). Visible Buttons

Go to "Visible Buttons" option to define show or hide icons on the toolbar, including Zoom, AutoPlay, Info, Thumbnail, Print, Help, Tilt Angle, Background Sound, Bookmark, Share and FullScreen.

Visible Buttons	
Zoom Button	Show
TiltAngle Button	Show
AutoPlay Button	Show
Background Soun...	Show
Info Button	Show
Bookmark Button	Show
Thumbnail Button	Show
Share Button	Show
Print Button	Show
Help Button	Show
FullScreen Button	Show

3. Flash Display Settings

(1). Background Config

If you don't want to use the background in pre-set templates, you can design your own background. Set "Background Type" as "Image", "Pure Color" or "Gradient Color".

Backgound Config	
Background Type	Image
Pure Color	
Pure Color	0x808000
Gradient Color	
Gradient Start Color	0xFF9900
Gradient End Color	0xe8ac4d
Gradient Angle	90

a. *Image Background*

Choose Image Style background, then choose "Picture" from computer, and define "Position".

Background Image	
Image File	gImgUrl.jpg ...
Image Position	Tile

b. *Pure Color Background*

You can make your 3D book background simple with setting a "Pure Color":

Pure Color	
Pure Color	0x808000

c. *Gradient Color*

Gradient Color	
Gradient Start Color	0xFF9900
Gradient End Color	0xe8ac4d
Gradient Angle	90

(2). Page Thickness and Auto Scale

Auto Scale	Yes
Tilt Angle	0
Page Thickness	4

You can show your book in original page size with un-checking the option "Auto Scale", or let the book show properly in different Flash Container with checking this option. The program helps to build page-flipping eBooks with real life-like book effect, you can set thickness per page.

You can define default tilt angle for your created digital book, the value you can set to is number between -20 and 20. The readers can change tilt angle manually too by clicking the "Tilt Angle" option or just wheel the mouse directly.

Click "Apply Change" icon to apply the settings.

III. Flash Control Settings Panel

Flash Control Settings	
GoogleAnalytics ID	
Share ID	

In the HTML output format, you can add statistics by using google analytics. You can get more information about Google Analytics ID from http://www.google.com/analytics/ . And

3DPageFlip program uses AddThis sharing platform which supports hundreds of sharing channels. Just build your own user account and get account ID. Then after you publishing your create 3D eBook online, you can know how many people shared your eBook in your account record. More details please view info in the FAQ page as reference: http://www.3dpageflip.com/faq/9.How-to-enable-readers-to-share-published-3D-eBook-online-with-analyzing-embedded.html

License Agreements

All copyrights to 3DPageflip Standard (the Software) are exclusively owned by 3DPageFlip.com. For more information, visit our website at www.3dpageflip.com .
